moving yes*

Dear President Friday:

On behalf of the Carolina Population Center, it is my pleasure to invite you to attend the opening ceremonies of an International Workshop on Training of personnel involved in family planning programs. This will be held on Wednesday, June 7, in Chapel Hill. Formal welcoming addresses will begin at 7:30 p.m. in Howell Auditorium. They will be followed by an informal reception in the Morehead Planetarium. *free*

Participants in the six-week workshop will include government administrators in charge of training programs and members of the teaching faculties of family planning training centers from Egypt, El Salvador, India, Indonesia, Pakistan, the Philippines, Thailand and the United States. A provisional list of participants and faculty is enclosed for your information, along with a general description of the workshop program. The Ambassador of each of the foreign countries listed above also has been invited.

As you know, we have made a total commitment to the field of family planning and population studies. The Carolina Population Center is coordinating a University-wide program of training, research, and service that now involves more than 14 of our departments. In addition to activities in the United States, we have close relationships with India, Egypt, Thailand, Chile and several other countries. A summary statement on the Carolina Population Center is also enclosed for your information.

Mrs. Friday is also invited to attend. The opening program will consist of introductions and words of welcome. We would like to call on you to say a few words. Following the opening exercise, we shall have a reception in the rotunda at which time we would like you and Mrs. Friday to receive. The receiving line, as presently constituted, is to consist of the Fridays, the Sittersons, the Grahams and the Freymanns.

We hope very much that you can be present and participate in this significant occasion.

Sincerely yours,

*John Graham*

John B. Graham, M.D., Chairman of the  
Policy Board of the Carolina Population  
Center
