

STATE OF NORTH CAROLINA  
GOVERNOR'S OFFICE  
RALEIGH 27602

RECEIVED

16 1967

DAN K. MOORE  
GOVERNOR

November 8, 1967

Office of  
Vice Chancellor  
Health Sciences

Dr. Moye W. Freymann, Director  
Carolina Population Center  
123 West Franklin Street  
Chapel Hill, North Carolina

Dear Dr. Freymann:

I commend you and the newly formed North Carolina Commission on Population and Family for your interest and efforts in the critically important issue of identifying more clearly the problems of population and family in North Carolina. I understand that you will be investigating such areas as summer camps for underprivileged children, family life counseling on a voluntary basis, group health clinics, and other programs.

I trust that you will explore the possibility of enlisting the aid of private groups such as religious organizations, civic clubs, and fraternal organizations, in assisting with your study of these problems.

Again, I commend you for your efforts and interest in this very important endeavor.

Sincerely,

Dan Moore
