

February 20, 2013

Dear Colleague,

USAID's MEASURE Evaluation Project and Addis Continental Institute of Public Health, Addis Ababa, Ethiopia, are pleased to announce a training opportunity for the Anglophone Africa region. Addis Continental Institute of Public Health will be offering the "Regional Workshop on Data Analysis and Interpretation Using STATA." This one-week course will take place May 20-24, 2013, and will be taught in English.

The MEASURE Evaluation Project is committed to capacity building in monitoring and evaluation. As a part of this commitment, we have been collaborating with regional institutions to provide training opportunities to meet the need for monitoring and evaluation skills among professionals working in health programs. The course given by Addis Continental Institute of Public Health will accomplish this by providing intensive training that will cover the fundamentals of data analysis and interpretation using STATA, including:

- Key Concepts in Data Analysis
- Descriptive Information and Statistics
- Statistical Tests
- Reading Data into STATA
- Creating and Recoding Variables
- Subsetting Data
- Combining Data Files
- Weighting Data
- Interpreting STATA Analysis

MEASURE Evaluation staff will join faculty from Addis Continental Institute of Public Health to provide instruction. The course will target mid-level health and population officers, program managers and other professionals involved with monitoring and evaluating health programs.

The fee for the course is US \$1,250. This tuition fee *does not* include airfare, lodging, visa fees, evening meals or other incidental expenses. No MEASURE Evaluation fellowships are available for this workshop. **Please note that the application deadline is April 20, 2013.**

Please refer to the attached brochure for additional information. Feel free to contact the Capacity Building Specialist with any questions regarding this training opportunity (measure_training@unc.edu).

With best regards,
