

**CHNS Individual Fishing Master File
General Description
(M05FISHI)**

The CHNS Individual Fishing Master File contains information regarding fishing income and activity of survey individuals. As a longitudinal file, this file contains multiple years of data for each individual. An individual can have from 1 to 6 years of data as designated by the *WAVE* variable which contains the survey year, 1989, 1991, 1993, 1997, 2000 or 2004.

This file consolidates individual fishing data from 5 survey files:

1989	1991	1993	1997	2000	2004
C89HH8A	C91HH9A	C93HH10B	C97HH10	C00HH12	C04ADULT C04CHILD

Some variable names have been changed to be consistent across all survey years and not all variables contain information for all years. See the following [Variable Name Mapping](#) document.
