

**CHNS Livestock by Type Master File
General Description
(M05LIVET)**

The CHNS Livestock by Type Master File contains information regarding the livestock income by type of livestock. As a longitudinal file, this file contains multiple years of data for each household with livestock. A household can have from 1 to 6 years of data as designated by the *WAVE* variable which contains the survey year, 1989, 1991, 1993, 1997, 2000 or 2004 and from 1 to 4 types of livestock.

This file consolidates type of livestock data from 5 survey files:

1989	1991	1993	1997	2000	2004
C89HH7B	C91HH8C	C93HH9C	C97HH9B	C00HH11B	C04HT3

Some variable names have been changed to be consistent across all survey years and not all variables contain information for all years. See the following [Variable Name Mapping](#) document.
