

**CHNS 1989 Infant/Toddler Feeding Master File  
General Description  
(M07INFNT)**

The CHNS 1989 Infant/Toddler Feeding Master File contains information from the 1989 Infant Feeding Survey (variables U4-U9) that do not fit on other longitudinal files due to ID incompatibility. Although the same questions were asked in later surveys, they were asked regarding the last pregnancy and identified by the mother's ID or line number. This 1989 survey was for all children under 7 years of age and was identified by the child's ID.

Since this file only represents the 1989 Survey Year, it is not a longitudinal file. However, this file has been updated and reformatted to match the longitudinal file and ID format.

<b>1989 File</b>	<b>1989 Infant/Toddler Feeding Master File</b>
C89INFNT	M07INFNT

**Special Notes:**

1. The 1989 U10-U15 variables were compatible with the 1991 and 1993 Infant Feeding Surveys and were merged with the 1991/93 data, see the documentation for the CHNS Infant Feeding Master File (M05INFED).
