

**CHNS Infant Feeding Master File
General Description
(M07INFED)**

The CHNS Infant Feeding Master File contains information from the 1989 Infant Feeding Survey and the infant feeding section of the 1991 and 1993 Ever Married Women Survey. This component of the CHNS Survey was discontinued after 1993. However, the 1989, 1991 and 1993 survey files have been combined, updated and reformatted to match the longitudinal file and ID format.

| 1989 File | 1991 File | 1993 File | New Infant Feeding Master File |
|------------------|------------------|------------------|---|
| C89INFNT | EMWTAB3 | C93EMW1C | M07INFED |

Special Notes:

1. The 1989 U10-U15 variables in a single observation/infant file were renamed and converted to a multi-observation file that is compatible to the 1991 and 1993 Infant Feeding Files.
2. For 1991 and 1993, using a 30-day month, variable S104_DY was rounded up and added to S104_MO to create a new variable, S104, "MONTHS OLD WHEN FIRST FED" a certain type of food. Variables S104_DY and S104_MO were then dropped.
