

The Pregnancy, Infection, and Nutrition (PIN) Study – PIN 1 ONLY

FOLLOW-UP STILL-PREGNANT QUESTIONNAIRE DOCUMENTATION

See the **table of contents** on the next page for information about the questionnaire sections.

General coding rules are described in the General Coding Documentation. Please refer to a copy of the questionnaire for additional printed response codes.

The **variable names** were constructed to identify the source instrument (MQ in this case), then the question number (A1 for section A, question 1). In cases where there was more than one variable for the question, the convention was to use A, B, C..., or AA, AB, BA, BB (see question MQB3AA as an example).

While an attempt has been made to capture the **skip patterns** in this documentation, please refer to the questionnaire for a more thorough understanding of these logic paths.

PIN Study Follow-up Still-Pregnant Questionnaire Table of Contents

Q section
A. Preliminary information and introduction to the study
B. Current pregnancy information (infections, HIV/AIDS, breastfeeding plans)
C. Health behaviors (smoking, alcohol, drugs)
D. Sexual behavior during pregnancy, advice about sex during pregnancy
E. Employment changes
F. Physical activity
G. Subject's self assessment
H. Interviewer assessment of the interview
