I. HOUSEHOLD ROSTER: OLD MEMBERS IN OLD HOUSEHOLDS (TABLE 1)
(for all households that participated in the study in 2009 and previous years)

* Check the information in Questions 1-5 in Table 1 for members who lived in the household in 2009 and previous years. If any information is incorrect, draw a line through it and record the correct information next to it (or above it). Please write the new information clearly.

* For most members, two birth dates are printed: a Western date and a Lunar date. It is not necessary to check both dates. If the respondent knows the Western birth date, then check the date printed in the Western column and draw a line through the date in the Lunar column. If the respondent knows the Lunar birth date, then check the date printed in the Lunar column and draw a line through the date in the Western column.

* If the date is correct and it is printed in the correct column, draw a circle around the date.

* If the date is wrong, draw a line through it and write the correct date next to it (or above it).

* If the date is correct, but it is printed in the wrong column, fix the date in the correct column and draw a line through the date in the other column. For example:

If the correct Lunar birth date is printed in the Western column:
- draw a line through the incorrect date in the Lunar column
- write the correct Lunar birth date next to it (or above it)
- draw a line through the date in the Western column

If the correct Western birth date is printed in the Lunar column:
- draw a line through the incorrect date in the Western column
- write the correct Western birth date next to it (or above it)
- draw a line through the date in the Lunar column

If the correct date is known, but the calendar is not known, assume it is Western (write the date in the Western column).

If you change either the Western or Lunar birth date, use code 1 for Question 6. If you do not change either the Western or Lunar birth date, use code 0 for Question 6.

Then ask Questions 7-12 for all members and record the answers in Table 1 (see Example 1/Table 1 in training manual).

*After all questions in Table 1 are asked for all members who lived in the household in 2009 and previous years, go to Section II, ask Questions 1-13 for all new members, and record the answers in Table 2.
