Nang Rong Projects

Codebook for the 2000 Old & New Household Questionnaires

Carolina Population Center, University of North Carolina at Chapel Hill
The Institute for Population and Social Research, Mahidol University

September 23, 2004

Using this Codebook

This codebook is a product of two questionnaires. One questionnaire was administered to Old Households, while the other questionnaire was administered to New Households. Most parts of the two questionnaires were exactly the same; however, there was an additional form and some questions asked only of Old Households. These are noted in the codebook. Below are some important things to know when working with this codebook:

Data File Pointers

There is a data file "pointer" at the top of every page. All variables described on the page are located in the data file named.

Column x Column

Question No.	Variable			Question	Code
	Name	**Type**	**Size**		

- ***Question No***. points to the question number on the questionnaire. Some variables, labeled "Created at CPC," do not come from the questionnaire but have been created using the questionnaire data.

- ***Variable*** lists the...

    > ***Name*** which is the SAS variable name in the data file.
    > ***Type*** which tells whether it is a numeric variable (N) or an alphanumeric variable (A).
    > ***Size*** which gives the maximum length of the variable.

- ***Question*** shows the actual question from the questionnaire if the variable is not created. If it is a created variable, then this column provides a short description of the variable. In this same column, below the question or description, is either the labels for each of the codes on this variable or a pointer to go see one of the codebook appendices.

- ***Code*** lists either the actual values on the variable or the format of those values.

Variable Naming Convention?

There is not a strict naming convention per se, but there are some things to point out:

- We still adhere to 8 characters or less for all variable names.
- Most variables start with an 'X' followed by the form and question numbers.
- Flag variables created at CPC usually end with 'FL.'
- An identifier variable ends with the last 2 digits of the survey year from which it came.

Missing Values

- ***Not Applicable***: Variables are assigned this code when the question is skipped according to the logic in the questionnaire.   This code is always SAS system missing, which is a value of "." for numeric variables or a value of " " (or blank) for alphanumeric variables.

- ***Missing/Don't know***:   Variables are assigned this code when the respondent did not know the answer to the question or when the question was skipped during the interview. This code always has a value consisting of all 9's.   The number of 9's is determined by the length of the variable. For instance, if the variable length is 3, then the variable is assigned a '999' code.

Standard Shading

As shown below, the column headers are always shaded as well as the row that contains the actual question or description that corresponds with the variable.

Question No.	Variable			Question	Code
	Name	Type	Size		

3				What is this person's age?	
	X3	N	2	Code actual age in years	
				Age under 1 year old	0
				Age 97 or more	97
				N/A	[.]
				Missing/Don't know	99

Restricted-Use Shading

There are variables described in the codebook which are only available in the restricted-use data files. For these variables, all of the columns – question number, variable name, question and code – and all of the codes and labels have been completey shaded:

3				Data from the 2000 interview	
				House Number	
	HOUSE00	A	3	A 3-digit sequence number from Form H provided by the GPS teams.	001 – 205
				Lived in a temple when interview was conducted.	777

Some of the restricted-use variables are recoded for the public release data files, while others are not available in any form.   The variable above (HOUSE00) is not available in any form in the public release data files. When a restricted-use variable is recoded for the public release data files, then a note and the public release codes will follow the variable:

9a				Where does this person currently live?	
	X9A	A	7	Another village in Nang Rong	3 + Village #
				In Nang Rong, but village # is unknown	3 + 999999
				Outside Nang Rong district	4 + District # + 0000
				Another province	5 + Province # + 0000
				Another country	6 + Country # + 0000
				N/A	[ ]
				Missing/Don't know	9999999

The X9A variable in the public use data has the following values which are recodes of the original values:

	X9A	A	1	Another village in Nang Rong	3
				Outside Nang Rong district	4
Public Use Codes				Another province	5
				Another country	6
				N/A	[ ]
				Missing/Don't know	9

Identifier Variables for the Community and Household Data in 1984, 1994 and 2000

Understanding the identifier variables is vital in working with the data files and merging them appropriately. Analysts will need to consistently use three different types of identifiers – village, household and individual - in working with the community and household data files. Each identifier type represents a different level of observation and detail and provides the key to the most important mechanism for matching and linking villages, households and people. Below, there is a description for each identifier type, which is then followed by the identifier variable names (both restricted- and public-use data) for each survey year:

- **Village** - A unique number was assigned, during or just prior to the data collection, to villages that existed within the boundaries of the 1984 Nang Rong District.

	1984 Survey	1994 Survey	2000 Survey
Restricted	VILL84	VILL94	VILL00
Public	n/a	n/a	n/a

- **Household** - Each household received two unique identifiers. The first identifier was assigned by an interviewer within the household's respective village as the village list was being compiled. The second identifier was written on the household's questionnaire by the interviewer. This identifier includes the village number and the house number (or unique sequential number in 1994).

	1984 Survey	1994 Survey	2000 Survey
Restricted #1	HOUSE84	LEKTI94	HOUSE00
Restricted #2	HHID84	HHID94	HHID00
Public	PHHID84	PHHID94	PHHID00

- **Individual** - The individual identifiers (CEP codes) are found on the household roster. The CEP code was assigned by the interviewer as the household roster was being updated during the interview.

	1984 Survey	1994 Survey	2000 Survey
Restricted	CEP84	CEP94	CEP00
Public	CEP84	CEP94	CEP00

Given the three identifier types, the following table shows what identifier variables are needed to uniquely identify a village, a household and an individual in both the restricted- and public-use data:

Community and Household Survey Data

To uniquely identify a …	#	Restricted-Use Data			Public-Use Data		
		1984 Survey	1994 Survey	2000 Survey	1984 Survey	1994 Survey	2000 Survey
Village	--	VILL84	VILL94	VILL00	n/a	n/a	n/a
Household	1	VILL84 HOUSE84	VILL94 LEKTI94	VILL00 HOUSE00	n/a	n/a	n/a
	2	HHID84	HHID94	HHID00	PHHID84	PHHID94	PHHID00
Individual	1	VILL84 HOUSE84 CEP84	VILL94 LEKTI94 CEP94	VILL00 HOUSE00 CEP00	n/a	n/a	n/a
	2	HHID84 CEP84	HHID94 CEP94	HHID00 CEP00	PHHID84 CEP84	PHHID94 CEP94	PHHID00 CEP00

Identifier Variables for the Migrant Follow-Up Data in 1994 and 2000

The Migrant Follow-Up data has only two identifier types – household and individual.   Please note, however, that the household survey identifiers are part of the Migrant Follow-Up data to allow linkages between the migrant and household data.   The two migrant identifier types represent a different level of observation and detail that provides the key to the most important mechanism for matching and linking migrant households and people. Below, there is a description for each identifier type, which is then followed by the identifier variable names (both restricted- and public-use data) for each survey year – 1994 and 2000:

- **Household** – Each migrant household had an identifier written on the questionnaire by the interviewer. This identifier includes the village number from which the migrant originated and a unique sequential number.   In the 2000 data, there were two phases of the Migrant Follow-Up data collection – the urban phase and the rural phase.   Since the household identifier (MID00) could be the same across the two phases, a second variable (MIGTYPE), signifying the migrant type, is needed to uniquely identify the household.

	1994 Survey	2000 Survey
Restricted	MID	MID00, MIGTYPE
Public	PMID94	PMID00

- **Individual** - The individual identifiers (MCEP codes) are found on the migrant's household roster. The MCEP code was assigned by the interviewer as the migrant's household roster was being updated during the interview.

	1994 Survey	2000 Survey
Restricted	MCEP8	MCEP00
Public	MCEP8	MCEP00

Given these two migrant identifier types, the following table shows what identifier variables are needed to uniquely identify a migrant household and an individual in both the restricted- and public-use data:

Migrant Follow-Up Data

To uniquely Identify a …	Restricted-Use Data		Public-Use Data	
	1994 Survey	2000 Survey	1994 Survey	2000 Survey
Migrant Household	MID	MID00 MIGTYPE	PMID94	PMID00
Individual	MID MCEP8	MID00 MIGTYPE MCEP00	PMID94 MCEP8	PMID00 MCEP00

Codebook for the 2000 Old & New Household Questionnaires

Cover Page of Questionnaire

Question No.	Variable			Question	Code
	Name	**Type**	**Size**		
	HHID00	A	9	Household ID from 2000 Questionnaire • First 6 digits = 2000 Village Number • Last 3 digits = 2000 House Number	Village # + House #

The HHID00 variable is not in the public use data, but it has been replaced with a variable called PHHID00. The values for this new variable were randomly generated based on the original values from HHID00:

Public Use Codes	PHHID00	N	4	Randomly generated sequence number	1 – 9415

Created at CPC				Household Type	
	HHTYPE00	N	1	Old Household New Household Combined Old Household Moved Old Household	1 2 3 4

Created at CPC				Sample Migrant Village	
	MIGVILL	N	1	Not a sample migrant village Sample migrant village	0 1

Please note that the HHID00 (or PHHID00), HHTYPE00 and MIGVILL variables are in each of the household survey data files: *hh00, indiv00, sibs00, life00, plots00 & plots99.*

Form 2: New Members in Old Households
Form 3: Members in New Households

Question No.	Variable			Question	Code
	Name	Type	Size		

Identifiers from the 1984 and 1994 Household Surveys

The following identifier variables are from the 1984 and 1994 Household Surveys.   These variables can be used to link an individual to the 1984 and/or 1994 Survey data files. Please note that not all individuals can be linked to the 1984 and/or 1994 data files. These individuals are coded as "N/A" on the appropriate identifier set(s).

Identifiers from the 1984 Survey

				1984 Village Number	
	VILL84	A	2	1984 Village Number N/A	01 – 51 [ ]
				1984 House Number	
	HOUSE84	A	3	A unique 3-digit sequence number within village. N/A	001 – 185 [ ]

The VILL84 and HOUSE84 variables are not in the public use data, but they have been replaced with one variable called PHHID84. The values for this new variable were randomly generated based on the original values from VILL84 and HOUSE84:

Public Use Codes	PHHID84	N	4	Randomly generated sequence number N/A	1 – 5860 [.]
				1984 CEP Number	
	CEP84	A	3	Person Identifier within the 1984 household N/A	101 – 118, 201 – 209 [ ]

Identifiers from the 1994 Survey

				1994 Household Identifier	
	HHID94	N	8	Household ID from Questionnaire in 1994 N/A	Village # + Sequence # + # [.]

The HHID94 variable is not in the public use data, but it has been replaced with a variable called PHHID94. The values for this new variable were randomly generated based on the original values from HHID94:

Public Use Codes	PHHID94	N	4	Randomly generated sequence number N/A	1 – 7331 [.]
				1994 CEP Number	
	CEP94	A	3	Person Identifier within the 1994 household N/A	101 – 205, 401 – 409, 491 – 494, 501 – 511 [ ]

Question No.	Variable			Question	Code
	Name	**Type**	**Size**		

Note: Since Forms 1, 2 and 3 are almost identical, the "Question No." and "Question" columns do not include the form number. For instance, the "Question No." column for the age question contains a 3, while the questionnaire forms are actually labeled 1.3 for Form 1, 2.3 for Form 2, and 3.3 for Form 3.

Question No.	Variable			Question	Code
				2000 CEP Number	
	CEP00	A	2	2-digit sequence number	01 – 20

Question No.	Variable			Question	Code
1				Where is this person living now? **Note**: Answers to Q1 were not filled in until the interviewer had responses to Q5 – Q8.	
	X1	N	1	Deceased (go to the next person) Still living in this house or moved out less than 2 months ago Moved to another house in this village Moved out of this village 2 or more months ago Living in this house and listed on Form 2 as a new member since 1984 or 1994. Missing/Don't know/Don't know the person	0 1 2[a] 3 4 9

[a] Most, but not all, individuals who are coded 2 on the X1 variable are listed on two household rosters within the village and, as a result, occur in the data twice. The individuals are coded as X1=2 in the household where they used to live (the **origin household**), while the variables DHHID00 and DCEP00 identify them in the household where they are currently living in 2000 (the **destination household**).   In the destination household, they would either be listed on Form 2 of an old household and coded as X1=4 or on Form 3 of a new household and coded as X1=1.

There is a small group of individuals (n=83) coded as X1=2 who are <u>not</u> listed on two household rosters within the village. These individuals are either living at a temple in the village or have an unknown destination household.   They are listed in their origin household only.

Question No.	Variable			Question	Code
	Name	Type	Size		
2				Date of birth	
				Day of birth	
	X2BDAY	N	2	Code actual day N/A Missing/Don't know	[.] 99
				Month of birth	
	X2BMONTH	N	2	Code actual month N/A Missing/Don't know	[.] 99
				Year of birth (Buddhist Era Years)	
	X2BYEAR	N	4	Code actual year N/A Missing/Don't know	[.] 9999

3				What is this person's age?	
	X3	N	2	Code actual age in years Age under 1 year old Age 97 or more N/A Missing/Don't know	 0 97 [.] 99

4				Sex	
	X4	N	1	Male Female N/A Missing/Don't know	1 2 [.] 9

5				Does this person usually live in this house?	
	X5	N	1	Yes No - go to Q7 N/A Missing/Don't know	1 2 [.] 9

6				Last night did this person sleep here?	
	X6	N	1	Yes - go to Q13 No N/A Missing/Don't know	1 2 [.] 9

Question No.	Variable			Question	Code
	Name	Type	Size		
7				How long has it been since this person lived here?	
	X7D	N	2	Code actual number of days Normally stays here but slept at the paddy field N/A Missing/Don't know	 97 [.] 99
				X7M and X7Y use the same codes as X7D	
	X7M	N	2	Months	
	X7Y	N	2	Years	

8				Does this person still live in this village (1984 village)?	
	X8	N	1	Yes – *go to X8_HHID* No N/A Missing/Don't know	1 2 [.] 9
	X8_HHID	A	9	2000 Household ID (HHID00) Paddy field In this (1984) village at a temple In this (1984) village, but house # is unknown N/A Missing/Don't know	 Village # + 000 Village # + 777 Village # + 999 [ ] 999999999

Skip Patterns:

If Form 1 and X8 = YES: If the answer in Q7 ≥ 2 months enter 2 in Q1and go to Q13. Otherwise enter 1 in Q1 and go to Q13.
If Form 1 and X8 = NO: If the answer in Q7 ≥ 2 months enter 3 in Q1 and go to Q9b. Otherwise enter 1 in Q1 and go to Q9a.

9a				Where does this person currently live?	
	X9A	A	7	Another village in Nang Rong In Nang Rong, but village # is unknown Outside Nang Rong district Another province Another country N/A Missing/Don't know	3 + Village # 3 + 999999 4 + District # + 0000 5 + Province # + 0000 6 + Country # + 0000 [ ] 9999999

The X9A variable in the public use data has the following values which are recodes of the original values:

	X9A	A	1	Another village in Nang Rong Outside Nang Rong district Another province Another country N/A Missing/Don't know	3 4 5 6 [ ] 9
Public Use Codes					

Skip Patterns:

If responded to Q9a, then go to Q13.

Question No.	Name	Type	Size	Question	Code
9b.1 & 9b.2				Migrant Location Information	
	X9B2VILL	A	6	See Village Appendix N/A Missing/Don't know	Village # [ ] 999999
	X9B2DIST	A	2	See District Appendix N/A Missing/Don't know	District # [ ] 99
	X9B2PROV	A	2	See Province Appendix N/A Missing/Don't know	Province # [ ] 99
	X9B2COUN	A	2	See Country Appendix N/A Missing/Don't know	Country # [ ] 99

The X9B2VILL, X9B2DIST, X9B2PROV and X9B2COUN variables have combined into one variable in the public use data. The new variable is called X9B2 and has the following values:

	Name	Type	Size	Question	Code
Public Use Codes	X9B2	A	1	Another village in Nang Rong Outside Nang Rong District Another province Another country N/A Missing/Don't know	3 4 5 6 [ ] 9

Question No.	Name	Type	Size	Question	Code
9b.3				During the past 12 months, has this migrant contacted or tried to contact members of this household by telephone while he or she was away?	
	X9B3_1	N	1	No – go to Q9b.4 N/A Missing/Don't know	1 [.] 99
				Directly called household's phone or hand phone	
	X9B3_2	N	2	Code number of times N/A Missing/Don't know	 [.] 99
				Called another household in this village and left a message	
	X9B3_3	N	2	Code number of times N/A Missing/Don't know	 [.] 99

Question No.	Variable			Question	Code
	Name	**Type**	**Size**		

Migrant Follow Up Information (continued)

Question No.	Name	Type	Size	Question	Code
9b.4				Are there other people or migrants from this village who are likely to know where this person is?	
	X9B4	N	1	Yes – *go to X9B4_HH1* No N/A Missing/Don't know	1 2 [.] 9
	X9B4_HH1	A	9	2000 Household ID (HHID00) In this (1984) village, but house # is unknown N/A Missing/Don't know	Village # + 999 [ ] 999999999
	X9B4_HH2 – X9B4_HH4 use the same codes as X9B4_HH1				
	X9B4_HH2	A	9		
	X9B4_HH3	A	9		
	X9B4_HH4	A	9		

Question No.	Variable			Question	Code
	Name	Type	Size		

Note: On Forms 1, 2 and 3, questions 10 – 12 apply to **code 2 people only** and were to be filled in by the supervisor. The supervisor filled in the identifier information for the individual's "verified DESTINATION household."

Form 1: Verified DESTINATION Household for Code 2 People only (coded as 2 on Q1)

Question No.	Variable			Question	Code
10 & 11				2000 Village Number and 2000 House Number	
	DHHID00	A	9	HHID00 for destination household	
				In this (1984) village at a temple	Village # + 777
				In this (1984) village, but house # is unknown	Village # + 999
				N/A	[ ]

| | | | | plang: *a single contiguous piece of land.* This does not include the plang where your house is located.

The next set of questions will be about plang this household **uses**. By uses, I mean a plang that your household uses to grow crops, livestock, fruit trees, eucalyptus trees, fish ponds, or anything else to benefit your household. This includes joint use. By joint use, I mean your household and one or more other households cultivate this land jointly or together. | |

| 6.11 | | | | During the last growing season (1999 - 2000), that is, the one that began with the monsoon last summer and was harvested later last year, how many plang did you use? | |
| | X6_11 | N | 2 | Code the actual number of plangs
Missing/Don't know |
99 |

6.12				Think back to the previous growing season, that is the 1998 – 1999 growing season. Were there any plang you used then but did not use in the last growing season?	
	X6_12	N	1	Yes No – *go to Q6.13* Missing/Don't know	1 2 9
				Number of plangs	
	X6_12_1	N	2	Code the actual number of plangs N/A Missing/Don't know	 [.] 99

| 6.13 | | | | Total amount of land used in last two growing seasons: (Add the two numbers above OR add the numbers in Q6.11 and Q6.12). The totals should be the same. | |
| | X6_13 | N | 2 | Code the actual number of plangs
Missing/Don't know |
99 |

Skip Patterns:

If Q6.11 = 0 and Q6.12 ≠ 0, go to Q6.39.

If Q6.11 AND Q6.12 (and Q6.13 total) = 0, go to Q6.57.

Question No.	Variable			Question	Code
	Name	**Type**	**Size**		

Interviewer: Question Q6.77 is a checkpoint. We already know from previous questions whether this household did agricultural work. If they did, proceed with the following question, otherwise the interview is complete.

Question No.	Variable			Question	Code
6.77				Does anyone in this household do any agricultural work?	
	X6_77	N	1	Yes No – Interview is complete Missing/Don't know	1 2 9

6.78				In the last year, did this household pump water from rivers, streams, ponds, or canals to the fields?	
	X6_78	N	1	Yes No N/A Missing/Don't know	1 2 [.] 9

6.79				How about wells? In the last year, did this household pump water from wells to the fields?	
	X6_79	N	1	Yes No N/A Missing/Don't know	1 2 [.] 9

6.80				In the last year, did this household divert existing water from rivers, streams, ponds, or canals to the fields by opening holes in the bunds?	
	X6_80	N	1	Yes No N/A Missing/Don't know	1 2 [.] 9

Note: If this household used no land in the last year (i.e. Q6.11 = 0), the interview is complete.

Question No.	Variable			Question	Code
	Name	**Type**	**Size**		

About Planting and Harvesting Rice

Question No.	Name	Type	Size	Question	Code
				Interviewer checks if household <u>planted</u> rice. Refer to Q6.20.	
	RICE	N	1	Yes No - go to Q6.91 *(CASSAVA)* N/A Missing/Don't know	1 2 [.] 9

6.81				Last year, how many people in this household helped with the planting of rice?	
	X6_81	N	2	Code actual number of persons N/A Missing/Don't know	 [.] 99

6.82				Last year, how many other people helped with the planting of rice?
