***QUESTIONNAIRE FOR WOMEN***

**between the ages of 14 and 49**

This research is being carried out in order to discover what people think about sexually transmitted diseases, about AIDS and the human immunodeficiency virus (in other words, the HIV infection—the virus called AIDS). Some questions may seem very personal. But you can be sure that your answers, together with the answers of others, will be used only in tables in the analysis of information from all respondents.

No one, except those who have organized the research, will see your answers. For this reason we ask that you yourself seal the completed questionnaire in the envelope.

If you don't want to answer a question, just skip it. However, your truthful participation will help researchers understand better how dangerous is the extent of AIDS in our country, how informed people are about sexually transmitted diseases, and how they think and talk about this problem.

In order to fill out the questionnaire correctly, we ask you to read all questions carefully and completely. The questionnaire is different from previous ones because you fill it out yourself, in the presence of the interviewer. Choose the answer that corresponds to your opinion and circle the number that corresponds to your answer. If the directions say you can give several answers, choose as many as you think are necessary.

If you don't know which answer to choose, or it is difficult to answer the question, circle code 7 or 97—"Difficult to answer."

If from the various proposed answers you choose, for example, "yes," then circle the number "1." For example:

**1. Answer, please, have you been on vacation or on holiday in the last 12 months?**

- Yes ..... 1
- No ..... 2      [GO TO Q.3]
- Difficult to answer ..... 7      [GO TO Q.3]

If you are asked to answer a question that has several parts, please make a mark on each line. For example:

**84. Did you apply for advice or drugs:**

[PLEASE GIVE AN ANSWER ON EACH LINE.]

	Yes	No	Difficult to Answer
1. At a polyclinic, dispensary, hospital, or medical point where you <u>don't have to pay</u> —in a compulsory program of medical insurance .....	1	2	7
2. At a place for an anonymous examination .....	1	2	7
3. At a polyclinic or hospital where you must pay .....	1	2	7

If after you have chosen an answer there is an instruction "[GO TO Q. No. ON PAGE]," it means that you are to go to the indicated question, and all questions before that are skipped. If there is no special instruction about going elsewhere, answer the next question.

If no answer appropriate for you has been proposed, please write your point of view on the blank line or near the question.

Thank you in advance!
