PUBLIC USE DATASETS CREATED

- 2007 **Latino Adolescent Migration, Health, and Adaptation (LAMHA) Data**, Carolina Population Center (www.cpc.unc.edu/projects/lamha). Collected between 9/04 and 5/06, this dataset contains survey data on migration, mental health, mental health service use, and family background for a random sample of 560 first-generation Latino immigrants (280 adolescents and 280 primary caregivers) in North Carolina and over 600 pages of qualitative interview data from 20 adolescents and 14 primary caregivers. Data are publicly available through a restricted data use agreement with the Carolina Population Center. Role: Principal Investigator
- 2012 **Southern Immigrant Academic Adaptation (SIAA) Data**, Carolina Population Center (www.cpc.unc.edu/projects/siaa). Collected between 9/06 and 5/10 on a random sample of 250 Latino 9th graders in North Carolina, this dataset contains: (1) survey data on academic experiences, ethnic identifications, and health status of respondents, (2) survey data from 14-day daily diaries completed by respondents, (3) 9th grade transcript data for each respondent, (4) data from two waves of Ecocultural Family Interviews (EFI) with 20 respondents and their primary caregivers, and (5) focus group data from high school teachers, non-Latino adolescent peers, and the parents of non-Latino adolescent peers. Role: Principal Investigator
- 2015 **Hispanic Community Health Study: Study of Latino Youth (SOL-Youth) Data**. Epidemiological Studies Coordinating Center (<http://www.csc.unc.edu/hchs/>). SOL-Youth is an innovative study of biological, social, cultural, psychological and perceived environmental influences on cardiovascular-metabolic risk. It involves 1,477 children aged 8-18 years, who are offspring of adults participating in the Hispanic Community Health Study (HCHS)/Study of Latinos (SOL). This study allows for the evaluation of acculturation and acculturative stress on health outcomes in children. Role: Principal-Investigator (Multiple PI Award)

- 2017 **Hispanic Community Health Study (HCHS) Data**, Epidemiological Studies Coordinating Center (<http://www.csc.unc.edu/hchs/>). Longitudinal dataset of 16,000 Hispanics with information on cardiovascular health, health behaviors, and socioeconomic background collected between 2006-2017. This study allows for the analysis of differences in health by immigrant generation and by Hispanic background. Role: Co-Investigator

RESEARCH GRANTS

Pending

- 07/21-06/26 Co-Investigator/Subcontract PI. **ATRIUM SGM: Assessing minoriTy stRess and Immune Regulation with Unified Measures of SGM Status.** National Heart Lung and Blood Institute (L Beach, PI). The overall objective of this study is to identify SGM health disparities in psychosocial and behavioral CVD risk factors and CVD outcomes and to determine if variation in SGM stigma and resilience predicts variation in these outcomes both in cross-section and over time in the Framingham Health Study Generation 3/Omni 2 (FHS), Coronary Artery Risk Development in Adults (CARDIA) and the Hispanic Community Health Study/Study on Latinos (heretofore referred to as “SOL”) cohorts. (Effort: 1-2/5% yrs 1-3; 10% yrs 4-5)
- 04/22-03/26 Principal Investigator **CASA Latina: Community Academic Strategic Alliance for Research with Hispanic/Latino(x) Populations.** National Center for Advancing Translational Sciences (Gonzales-Guarda R and Perreira K, MPIs). This project proposes a partnership among two of the Clinical and Translational Science Award (CTSA) hubs in North Carolina, Duke University and the University of North Carolina, Chapel Hill (NC-CH), and leading Latinx serving community-based organizations (CBOs) in proximal communities. A mixed-method, community-engaged research (CEnR) approach will be taken to develop and evaluate the feasibility of a comprehensive Community Academic Strategic Alliance with Latinx communities (CASA Latina). (Effort: 10%/yr)
- 07/21—06/25 Principal Investigator. **Post-Acute Sequelae of SARS-CoV-2 (PASC) Clinical Science Core (CSC).** National Center for Advancing Translational Sciences The Post-Acute Sequelae of SARS-CoV-2 (PASC) Infection Initiative will seek to rapidly improve the understanding of recovery after SARS-CoV-2 infection and to prevent and treat PASC. Our proposed PASC Clinical Science Core (CSC) seeks to empower the broad research community to disentangle these complicated effects by catalyzing networks of collaboration and supporting the PASC Initiative studies. To meet this goal, the Duke Clinical Research Institute (DCRI), University of North Carolina at Chapel Hill, and the

National COVID Cohort Collaborative (N3C) will develop the PASC CSC. (Effort 20% years 1-4).

Currently Funded Research

- 04/21-03/23 Co-Investigator. **Children of Immigrants Health Study (CIHS): An Evaluation of City and County Policies Affecting the Health of Children of Immigrants in the 2005-2019 National Health Interview Survey**. National Institute of Child Health and Development (C Allen, PI). This study will answer the following research questions: 1) Do local policies designed to promote immigrant integration and limit local involvement in immigration enforcement lead to better health and health care access for Latino immigrants and their children? 2) Do local immigrant policies buffer against the negative health impacts of immigration enforcement? (Effort: 5%/yr)
- 11/20-10/24 Co-Investigator. **RADx UP Coordination and Data Collection Center**. National Center for Advancing Translational Sciences. (Cohen-Wolkowicz M, PI; G. Corbie-Smith G, Subcontract PI; 1U24MD016258). As a part of the NIH Rapid Acceleration of Diagnostics Underserved Population initiative (RADx UP), CTSA at Duke University and UNC Chapel Hill have proposed a RADx UP Coordination and Data Collection Center. The team from UNC Chapel Hill CTSA will direct community engagement core to ensure coordination across RADx UP sites. (Effort: 20%/yr)
- 10/20-09/21 Co-Investigator. **Increasing Trustworthiness through Engaged Action and Mobilization (I-TEAM)**. Anissa Vines (PI). National Heart Lung and Blood Institute. This initiative, referred to as Community Engagement Research Alliance Against COVID-19 in Disproportionately Affected Communities (CEAL), is part of a state-based consortia (CEAL teams) to support research on awareness, education, and mistrust around COVID-19, as well as inclusion of underserved and ethnic/racial minority populations in COVID 19 clinical trials (prevention, vaccine, therapeutics trials). (Effort: 10%).
- 09/20-06/21 Consultant. **Socio-cultural Stress Profiles, Stress Responses, and Health in Mexican American Adolescents, Competitive Revision Supplement**. National Institute on Minority Health and Health Disparities (NIMHD) (Kim S; 3R21MD-012706-02S1) (Effort: <1%).
- 07/20-06/25 Co-Investigator/Subcontract PI. **Cardiovascular Health Associations with Minority stress: Behavioral Evaluations and Self-Reported Sociopsychological outcomes by SOGI status (CHAMBERS)**. National Heart Lung and Blood Institute (L Beach, PI) This collaboration will leverage an unprecedented opportunity to harmonize and pool measures within the Year 35 CARDIA and Visit 3 SOL exams to investigate the cardiovascular health (CVH) and cardiovascular disease (CVD) of sexual and gender minority (SGM) populations at the intersections of race, ethnicity, sex, SES, and geography. (Effort: 1-2.5% yrs 2-3; 10% yrs 4-5)
- 03/20-02/25 Principal Investigator. **Cardiovascular Health of Sexual and Gender Minorities in the Hispanic Community Health Study/Study of Latinos (SGM HCHS/SOL)**. National Heart, Lung, and Blood Institute (Poteat T and Perreira K, MPIs). This study aims to examine relationships between sexual/gender minority stress, coping, social support, and heart disease - a leading cause of morbidity and mortality among Hispanics/Latinos in the U.S. Findings will inform development of culturally-appropriate interventions to address psychosocial factors that may contribute to cardiovascular health disparities by sexual orientation and gender identity. (Effort: 20-25%/year)

- 02/20-02/21 Principal Investigator. **Parent Communication Regarding Anti-Latino Discrimination.** NC TRaCS (K. Eyal, K. Perreira, S. Schilling, MPI). This qualitative study aims to: (1) explore how Hispanic/Latino parents' experiences with the current anti-immigrant and anti-Latino social environment affects them, their families, and their children; (2) explore how Hispanic/Latino parents communicate with their children (ages 5-17) about anti-immigrant and anti-Latino discrimination; and (3) assess the strengths, needs, and interests of Hispanic/Latino parents in order to guide development of an intervention to build parents' capacity to discuss anti-immigrant and anti-Latino discrimination with children using age-appropriate information and techniques. (Effort 5%/year, no salary support)
- 07/19-07/22 Co-Investigator. **Transitions: A Study of College Life and Well-Being.** UNC Office for Undergraduate Research, Carolina Population Center, and Department of Economics (J Fruehwirth, PI). This is a pilot study of depression and anxiety among first-year college students at UNC-Chapel Hill. The study will include a survey a random sample of 1000 first-year students in Fall 2019 and Summer 2020. We will also conduct qualitative interviews with 10 students who report experiencing anxiety or depression as well as 10 student who do not. The study will be used to evaluate the effects of the Covid-19 pandemic on students' mental health and the feasibility of a national, longitudinal study of mental health among college students. (Effort 5%/year, no salary support)
- 12/18-11/25 Co-Investigator. **Hispanic Community Health Study Coordinating Center.** National Heart, Lung, and Blood Institute. (J. Cai, PI) This study will coordinate the collection of a third wave of epidemiological data on 16,000 Hispanic respondents ages 18-74 from 4 field centers in the United States. As co-investigator, I have been responsible for leading follow-up and retention efforts in all 4 sites and maintaining a follow-up rate of over 80%. (Effort: 10%/year)
- 08/18-07/23 Co-Investigator. **Healthy Mothers-Healthy Children: An Intervention with Hispanic Mothers and their Young Children.** National Institute of Nursing Research (D. Berry/H Santos, PI). The goal of this study is to provide a nutrition, physical activity, and coping skills training intervention to mothers to help them manage their weight and a nutrition and physical activity intervention for Hispanic children ages 3-4 to decrease excessive weight and adiposity gain. (Effort: 5-10%/year).
- 03/18-02/23 Co-Investigator. **UNC Clinical and Translational Science Award.** National Center for Advancing Translational Science. (J. Buse, PI). A national consortium of medical research institutions, funded through Clinical and Translational Science Awards, is working together and shares a common vision: to improve the way biomedical research is conducted across the country, reduce the time it takes for laboratory discoveries to become treatments for patients, engage communities in clinical research efforts, and train the next generation of clinical and translational researchers. (Effort 10%-15%/year)

Previously Funded Research

- 09/19-06/21 Consultant. **Socio-cultural Stress Profiles, Stress Responses, and Health in Mexican American Adolescents.** National Institute on Minority Health and Health Disparities (NIMHD) (Kim,S; 1R21MD-012706-01A1) (Effort: <1%).
- 9/17-08/20 Co-Investigator. **Johnston County Osteoarthritis Project: Arthritis, Disability, and Other Chronic Diseases project.** Centers for Disease Control and Prevention (CDC) (A Nelson, PI). This population-based study collects data on osteoarthritis and disability

- from a cohort of white, African American, and for the first time, Hispanic men and women. (Effort 1%/year)
- 10/18-06/20 Co-Investigator. **Child Adult Relationship Enhancement (CARE) for Spanish-Speaking Immigrant Families I Primary Care: Cultural Adaptation and Pilot.** NC TraCS (S. Schilling, PI). This pilot study aims to adapt CARE program for use with Spanish-Speaking Immigrant Families. (Effort 5%/year, no salary support)
- 11/17-10/19 Consultant. **Reproductive Health Access Monitoring Project. Hewlett Packard Foundation.** (G. Kenney, PI). This project aims to monitor reproductive health access through the implementation of a mixed-methods study. The research team will collect data for the 2018 Survey of Family Planning and Women's Health and conduct qualitative case studies in multiple states. (Effort 5%/year)
- 06/13-10/18 Co-Investigator. **Hispanic Community Health Study Coordinating Center.** National Heart, Lung, and Blood Institute. (J. Cai, PI) This study will coordinate the collection of a second wave of epidemiological data on 16,000 Hispanic respondents ages 18-74 from 4 field centers in the United States. As co-investigator, I have been responsible for leading follow-up and retention efforts in all 4 sites and maintaining a follow-up rate of over 80%. (Direct: \$22 million, Indirect: \$5 million; Effort: 10%/year)
- 10/16-9/17 Co-Investigator. **North Carolina Women's Health Access Project.** Anonymous Foundation (Curtis and Stuart, Co-PIs). This project brings together a multidisciplinary team to generate actionable evidence to improve equitable access to contraception and abortion for women in North Carolina. (Total Direct and Indirect: \$200,000; Effort: 20%, 1 year)
- 08/16-12/16 Consultant. **Puerto Rico Health Care Infrastructure Assessment.** U.S. Department of Health and Human Services. (S. Zuckerman, PI, Urban Institute, UI Contract 09153-6; U.S. DHHS Contract: HHSP233201500064I_HHSP23337006T). The purpose of this project is to develop a better understanding of the health care infrastructure and related issues in the Commonwealth of Puerto Rico. This project will include a robust, extensive environmental scan of existing literature and other sources related to Puerto Rico's health system, along with a site visit to the Commonwealth and the convening of a technical expert panel to examine these issues. (Effort: 8%, 1 year)
- 07/13-6/16 Consultant. **Biopsychosocial Determinants of Sleep and Wellbeing for Teens in Fragile Families** (L Hale, PI, Stony Brook University). The proposed research investigates the biopsychosocial (e.g., socioeconomic status, neighborhood factors, genetic) determinants of adolescent sleep patterns and their associations with biological (i.e., obesity) and psychological (i.e., depression) outcomes. Further, the study will investigate the direct and indirect effects of physical activity and screen time exposure on adolescent sleep, health, and wellbeing. Understanding the relative importance of these factors will identify and inform the development of culturally-sensitive interventions to promote overall health among adolescents. (Effort: <1% 1 year)
- 7/15-6/16 Co-Investigator. **Addressing Health Literacy and Numeracy to Prevent Childhood Obesity.** National Institute of Child Health and Development, NCTO1040897 (E. Perrin, PI NC-Chapel Hill Site). In 2003, Surgeon General Richard Carmona suggested that low health literacy is "one of the largest contributors to our nation's epidemic of overweight and obesity." Over 26% of preschool children are now overweight or obese, and children who are overweight by age 24 months are five times as likely as non-overweight children to become overweight adolescents. The aim of the study is to assess the efficacy of a low-

- literacy/numeracy-oriented intervention aimed at teaching pediatric resident physicians to promote healthy family lifestyles and prevent overweight among young children (age 0-2) and their families in under-resourced communities. (Effort: 5%, 1 year)
- 04/13-3/15 Consultant. **Implications of Immigration Enforcement Activities for the Well-being of Children in Immigrant Families: An Exploratory Study.** Department of Health and Human Services (H. Koball, PI, Urban Institute, Contract). This study will explore the consequences of immigration enforcement activities for the well-being of Children in Immigrant Families. Specifically, this study aims to: (1) describe the experiences of children and families affected by parental detention and removal; (2) understand the health and human services needs of these children and families and their access to public and private service delivery systems; (3) identify challenges and emerging promising practices for serving these children and families; and (4) identify potential opportunities for federal agencies to support effective state and local responses through guidance, technical assistance, and future research. (Effort: 8%, 1 year)
- 04/13—3/14 Consultant. **Strengthening Immigrant Families Economic Stability: Low-income Immigrants' Access to and Use of Public Benefits and Work Supports.** Annie E. Case Foundation. (H. Koball, PI, Urban Institute, Contract 99.2201). This study will continue research on immigrant families' and children's access to health and human services through a site visit to IL and conversations with health and social service organizations throughout the state. The site visit will result in a policy brief to complement existing briefs from site visits to MA, NC, and TX.
- 04/13-07/14 Principal Investigator. **Implementing Health Care Reform for Immigrant Populations.** This study will contribute to RWJF's program on Health Care Coverage by extending its research on the ACA's implementation. Focusing on immigrants' health coverage, the study aims to identify the challenges faced by state and federal policymakers in enrolling low-income families and their children into health insurance options available through the ACA, and evaluate promising practices that CBOs, private employers, and public agencies have utilized or can develop to increase enrollment into health care insurance programs, especially among immigrants and their children. (Direct: \$98,000 Effort: 20%)
- 03/11-12/14 Principal Investigator (with K. Bangdiwala, PI) **Hispanic Community Children's Health: Study of Latino Youth (SOL-Youth).** National Heart, Lung, and Blood Institute. This study will coordinate the collection of epidemiological data on 1,600 Hispanic respondents ages 8-16 from 4 field centers in the United States. The study aims to: (1) Evaluate the influence of youth acculturation and intergenerational differences in acculturation between youth and parents on youth's lifestyle behaviors and their cardio-metabolic risk profiles; (2) Test the association of parenting strategies and parental health behaviors with youth's lifestyle behaviors and cardio-metabolic risk profiles; and, (3) Assess the influence of youths' psychosocial functioning on youth lifestyle behaviors and cardio-metabolic risk profiles. (13R01HL102130-01, Direct: \$6.8 million Indirect: \$1 million Effort: 10%/year)
- 9/06-6/13 Co-Investigator. **Hispanic Community Health Study Coordinating Center.** National Heart, Lung, and Blood Institute. (J. Cai, PI) This study will coordinate the collection of epidemiological data on 16,000 Hispanic respondents ages 18-74 from 4 field centers in the United States. The study aims to identify the prevalence of and risk factors for diseases, disorders, and conditions in Hispanic populations and to determine the role of social, behavioral, occupation, lifestyle, and acculturation factors on differences in the prevalence and development of these conditions. As co-investigator, I have been

- responsible for leading follow-up and retention efforts in all 4 sites and maintaining a follow-up rate of over 80%. (Direct: \$22 million Indirect: \$5 million Effort: 10%/year)
- 11/10-3/13 Consultant. **Immigrant Access to Health and Human Services.** Department of Health and Human Services. (A. Chaundry, PI, Urban Institute, Contract HHSP23320095654WC). This study will provide a current and thorough policy understanding of immigrant families' and children's access to health and human services. In our research, we will complete the literature review of existing research on immigration and access to health and human services; we will conduct multiple site visits with health and social service organizations in key states; and we will integrate the site visit findings into in-depth analyses to inform a series of very focused and timely issue briefs on important and emergent policy topics. (Effort: 2.5% 1 year)
- 10/11-9/12 Consultant. **Child Maltreatment and Partner Violence: Bridging the Medical/Social Science Gap.** National Institute for Child Health and Development (PI: Melissa Johnson-Reed, University of Washington at St. Luis). This training grant aims to provide education and mentorship to young investigators seeking to conduct research on child maltreatment and partner violence. The training program integrates disciplinary perspectives on family violence from genetics, neuroscience, and biology to anthropology, sociology, and economics. (R25-HD072587, Total Award: \$139,653 Effort: <1%, 1 year)
- 12/10-11/12 Consultant. **What Makes Acculturation Successful? A study of Immigrant Youth at Rutgers.** National Institute of Child Development (P. Guarnaccia, PI). This study will delineate the key processes of adaptation and adjustment that immigrant youth and their families go through to successfully negotiate life in the United States and enter a 4-year college degree program. The proposed study will employ focus groups with 200 immigrant students to understand in-depth their experiences of adaptation and adjustment to U.S. society and the factors that helped them successfully attain college admission. A final product of the proposed study will be the identification of key items for a new acculturation measure. (Direct: \$275,000 Effort: <1%, 1 year)
- 09/09-08/11 Principal Investigator. **Southern Immigration Civic Adaptation Study.** Spencer Foundation. Through qualitative interviews with Latino adolescents and their parents, this study aims to evaluate the civic engagement of youth as they transition into adulthood. (Direct: \$40,000 Effort: 10%/year)
- 09/09-08/10 Principal Investigator. **Southern Immigration Academic Adaptation Study – Continuation Proposal.** Russell Sage Foundation. Through a second wave of qualitative interviews with Latino adolescents and their parents, this study aims to understand how the context of the South shapes the acculturation experiences of youth in school and their transitions to adulthood. (Direct: \$35,000 Effort: 5% 1 year)
- 08/09-07/11 Project Director. **Understanding the Role of Substance Use in Intimate Partner Violence.** National Center for Injury Prevention and Control Project Award (C. Runyan, PI). A project funded as part of the NC Injury Prevention Center Renewal. This study aims to evaluate the effects of alcohol-related policies on the prevalence and incidence of intimate partner violence. (Direct: \$110,000 Effort: 10%/year)
- 7/08-6/10 Principal Investigator. **Dietary Patterns and Obesity Risks among Latino Infants and Toddlers in North Carolina.** Center for Excellence in Children's Nutrition Small Research Grants Program. The proposed pilot study with Latina mothers and their children aims to evaluate the feasibility of conducting a longitudinal, observational study of infant care feeding practices, and the risk of obesity among Latino families. Survey

(n=60) and videotaped data (n=20) regarding infant care feeding practices and family and work environments will be collected. (Direct: \$70,000 Indirect: \$18,200 Effort: 5%, 1 year)

- 7/08-12/09 Principal Investigator. **Dietary Patterns and Obesity Risks among Latino Infants and Toddlers in North Carolina.** Ethnicity, Culture, and Health Outcomes Research Pilot. The proposed pilot study with Latina mothers and their children aims to evaluate the feasibility of conducting a longitudinal, observational study of infant care feeding practices, and the risk of obesity among Latino families. Qualitative interviews (n=20) regarding health and infant care beliefs and family and work environments will be conducted. (Direct: \$12,000 Indirect: \$0 Effort: <1%, no salary support)
- 6/06-8/09 Principal Investigator. **Southern Immigrant Academic Adaptation Study.** Russell Sage Foundation. Through a combination of daily diaries, surveys, and qualitative interviews, the Southern Immigrant Adaptation Study aims to provide policy makers, school administrators, and community advocates with information on how institutional and social resources can be structured to facilitate the successful adaptation of new immigrant youth into the North Carolina school system and ultimately, into the workforce. (Direct: \$170,000 Indirect: \$26,000 Effort: 15%/year)
- 8/07-8/09 Principal Investigator. **Southern Immigrant Academic Adaptation Study, Supplemental Award,** Russell Sage Foundation. (Direct: \$14,189 Indirect: \$2,128 Effort: 0%, no salary support)
- 9/08-6/09 Principal Investigator. **Latino Youth in the American South.** Russell Sage Foundation Visiting Scholar Program. (Direct: \$100,000 Indirect: \$0 Effort: 75%, 1 year)
- 5/08-4/09 Co-Investigator. **Feasibility of Procedures for Screening and Recruitment of Community-Dwelling Mothers for a New NIH Application “Reducing Depressive Symptoms in Low-Income, LEP Latina Mothers.”** Faculty Research Opportunity Grant, School of Nursing (PI: Linda Beeber). This small grant will allow the ALAS study to test screening and recruitment techniques for a community-based expansion of the ALAS intervention with Latina mothers suffering from depressive symptoms. (Direct: \$5,000 Indirect: \$0 Effort: <1%, no salary support)
- 12/07-1/09 Principal Investigator. **Immigrant Youth and the Social Context of Adaptation,** President’s Discretionary Award. William T. Grant Foundation.
This study merges school and county-level data with two secondary datasets to examine how the context of reception for immigrant youth in the South shapes their development. (Direct: \$21,500 Indirect: \$3,225 Effort: 5%).
- 4/07-3/09 Consultant. **Psychological Stress Reactivity among Mexican-origin Families.** Foundation for Child Development, Changing Faces of America’s Children Young Scholars Program. (PI: Sarah Watamura, University of Colorado at Boulder). This study examines the predictive power of both an immigrant family cumulative stress index and an immigrant family cumulative buffer index for mothers’ and children’s stress physiology to evaluate a mechanism linking stress, buffering, and long-term health. (Effort <1%, 1 year)
- 1/08-12/08 Consultant. **The Impact of Immigration Raids on America’s Children.** Foundation for Child Development. (PI: Randy Capps, The Urban Institute). This study examines how immigrant raids occurring within the last year are affecting the well-being of children of immigrants and their families. (Effort: <1%, 1 year).

- 7/07-10/08 Co-Principal Investigator. **Mexican National Longitudinal Study of Adolescent Health (Mexican Add Health) Pilot.** SEED grant, Carolina Population Center. This project will begin fieldwork in San Luis Potosi to develop a national study on migration, health, and health behaviors of Mexican youth. (Direct: \$8,000 Indirect: 0 Effort: <1%, no salary support)
- 1/07-9/07 Principal Investigator. **Immigrant, Refugee, and English Language Learner (ELL) Southeastern Regional Roundtable on Education.** Center for Global Initiatives, Special Projects Matching Fund. This project proposes to bring together 56 leading researchers, educators, policy makers, and Latino community representatives from four southeastern states (Georgia, North Carolina, South Carolina, and Tennessee) for a two-day roundtable discussion on issues affecting immigrant, refugee and English language learner (ELL) students in the Southeastern United States. (Direct: \$5,000 Indirect: 0)
- 1/07-9/07 Principal Investigator. **Immigrant, Refugee, and English Language Learner (ELL) Southeastern Regional Roundtable on Education.** Triangle Community Foundation. (Direct: \$2,000 Indirect: 0)
- 6/06-5/07 Principal Investigator. **Public Assistance and the Well-Being of Immigrant Youth.** University of Kentucky Poverty Research Center. Using the National Longitudinal Study of Adolescent Health (Add Health), this study evaluates how changes in access to public assistance after 1996 have affected access to health care and the health of immigrant youth. (Direct: \$17,000 Indirect: \$3,000)
- 3/03-6/07 Principal Investigator. **Immigrants, Parenting, and Infant/Toddler Well-Being.** Foundation for Child Development, Changing Faces of America's Children Young Scholars Program. This project combines two studies. In the first, builds upon the ALAS 'wings' project to examine the parenting behaviors of Latino mothers in Early Head Start programs and compare these behaviors across groups of depressed mothers and non-depressed mothers experiencing acculturative stress. In the second, newly available data from the *Fragile Families and Child Well-Being Study* are used to examine the etiology of prenatal alcohol and tobacco use and the effects of alcohol and tobacco use on parenting for both native- and foreign-born women and their children. (Direct: \$130,000 Indirect: \$20,000).
- 9/05-12/06 Co-Principal Investigator. **The Latino Adolescent Migration, Health, and Adaptation Project: Translating Information into Change for Immigrant Youth and their Families.** Z. Smith Reynolds Foundation. Funding was provided to convene community forums on Latino mental health. (Direct: \$25,000 Indirect: \$0)
- 1/05-12/06 Principal Investigator. **The Latino Adolescent Migration, Health, and Adaptation Project -- Supplement.** William T. Grant Foundation. Additional funding was provided to evaluate access to mental health services by Latino families participating in LAMHA. (Direct: \$18,000 Indirect: \$3,000)
- 1/04-12/06 Principal Investigator. **The Latino Adolescent Migration, Health, and Adaptation Project.** William T. Grant Foundation. This is a mixed-methods study of the migration experiences, mental health status and service needs of Latino immigrant youth (ages 12-18) and their primary caregivers in North Carolina. (Direct: \$310,000 Indirect: \$46,519)
- 9/02-12/06 Co-Investigator. **Early Head Start Latina Mothers: Reducing Depression and Improving Infant Mental Health (ALAS 'wings' project).** Department of Health and Human Services, Administration for Children and Families (Linda Beeber, PI). Evaluated a short-term intervention for Latino mothers with depressive symptoms who are participating in three EHS programs in North Carolina. (Total: \$400,000)

- 1/05-12/05 Principal Investigator. **Southern Immigrant Academic Adaptation Study, Pilot Proposal.** Junior Faculty Development Award, University of North Carolina at Chapel Hill, Office of the Provost. This pilot study evaluates the feasibility of expanding the *Los Angeles Social Identification and Academic Adaptation* project directed by Andrew Fuligini. (Direct: \$5,000 Indirect: \$0)
- 9/01-10/05 Principal Investigator. **Health, Education, and Economic Well-Being of Adolescent Immigrants.** Russell Sage Foundation. Examined generational changes and inter-relationships in health, educational attainment, and employment among immigrant adolescents transitioning into adulthood. (Direct: \$212,000 Indirect: 20,000)
- 9/03-9/05 Co-Investigator. **Culturally Specific Determinants of Tobacco Use and Unhealthy Dietary and Sedentary Behaviors: The Role of Acculturation on Mexican Parenting Styles and Practices.** Lineberger Comprehensive Cancer Center, Research Award in Population Sciences 2003. (Guadalupe Ayala, PI). Investigated how acculturation processes influence the development of risky health behaviors among Mexican immigrants to North Carolina. (Direct: \$30,000 Indirect: \$0)
- 1/02-9/05 Co-Investigator. **Promoting Biculturalism to Prevent Youth Violence.** Center for Disease Control. This study investigated how acculturation processes influenced the development of violent behaviors; established a violence prevention program to address the cognitive, social, and emotional factors that may lead to violence among immigrant youth; and evaluated the prevention program using a randomized clinical trial and a waitlist comparison group. (Total: \$800,000)
- 9/01-12/03 Principal Investigator. **The Latino Adolescent Migration, Health, and Adaptation Pilot Project.** University of North Carolina at Chapel Hill, Office of Research Support. Pilot study of mental health needs and service use patterns for new immigrant, Latino youth living in North Carolina. The pilot data supported the development of both the LAMHA and the biculturalism projects. (Direct: \$4,000)
- 1/03-12/03 Co-Investigator. **Ethnicity and Postpartum Depression.** University of North Carolina at Chapel Hill, Program on Health Outcomes. (Betsy Sleath, PI). This project evaluated methods of collecting data regarding postpartum depression within different ethnic groups; and examined differences between ethnic groups in discussing mental health issues with their providers, barriers to treatment of postpartum depression, and treatment preferences for postpartum depression. (Direct: \$30,000)
- 7/00-7/01 Principal Investigator. **Effects of Welfare Reforms and Economic Growth on Public Assistance Participation in California.** California Policy Research Center. Identified the relative effects of the economy and welfare reforms on welfare, food stamps, SSI, and Medicaid caseloads in California. Examined the fiscal consequences of a recession on state expenditures for these programs in California. (Direct: \$35,000)
- 7/00-9/00 Consultant. **MotherCare Guatemala.** Family Health International. Evaluated the effects of public health education campaigns on women's health beliefs and utilization of prenatal care services between 1995-1998.
- 8/99-8/00 Co-Investigator. **Effects of Public Subsidies on Use of Long Term Care.** National Institutes of Health. (Frank Sloan, PI). Evaluated services and effectiveness of rehabilitation services for patients suffering from Stroke or Hip Fractures. Medicare cost data were linked with respondents to the National Long Term Care Survey (NLTCs) to allow for a comprehensive evaluation of rehabilitation services received after the incidence of these conditions.

8/99-9/00 Co-Investigator. **Determinants and Cost of Alcohol Abuse among the Elderly and Near-Elderly.** National Institute of Alcohol Abuse and Alcoholism. (Frank Sloan, PI) Identified correlates of heavy/problem drinking among persons age 50+, including job and family stressors; and assisted with the development of a dynamic model of alcohol use.
