

## Amanda C. Wylie

### CURRICULUM VITAE

#### CONTACT INFORMATION

---

Phone: (412) 389-2733

Website: [www.researchgate.net/profile/Amanda\\_Wylie3](http://www.researchgate.net/profile/Amanda_Wylie3)

Email: [acwylie@live.unc.edu](mailto:acwylie@live.unc.edu)

#### EDUCATION AND TRAINING

---

- 2019-            Enrolled: Ph.D., Developmental Psychology  
University of North Carolina at Chapel Hill  
Minor: Epidemiology  
Advisor: Dr. Cathi Propper  
Master's thesis: *"Maternal prenatal toxic metal exposure and neonatal neurodevelopment: testing moderations by maternal psychological and social stressors."*
- 2013-2015      M.S.P.H., Population, Family, and Reproductive Health  
Johns Hopkins Bloomberg School of Public Health  
Certificate: Child Health and Development  
Advisors: Drs. Kristin Voegtline and Susan Gross  
Master's thesis: *"Antenatal trait anxiety is related to child behavioral outcomes and stress physiology: a prospective study using teacher report."*
- 2009-2013      B.S., Biobehavioral Health, Pennsylvania State University  
Minor: Human Development and Family Studies

#### RESEARCH EXPERIENCE

---

- 2021-            Biosocial Trainee, Carolina Population Center, The University of North-Carolina- Chapel Hill  
Faculty Preceptors: Dr. Rebecca Fry and Dr. Keely Muscatell
- Selected to receive interdisciplinary training in the fields of psychology/neuroscience and environmental sciences and engineering.
  - Trainees complete at least 15 hours of coursework in the integration of the biological and social sciences and in a gap area (in my case, epidemiology)
- 2019 -            Graduate Research Assistant, The University of North Carolina- Chapel Hill  
Brain and Early Experiences Study, P.I. Dr. Cathi Propper
- Performs data cleaning, scoring, and management across multiple data sources and overlapping timepoints for longitudinal study consisting of 200 mother-infant pairs.
  - Leads the coordination of biological sample collection and assay (e.g., blood, urine, saliva, stool, hair) across multiple timepoints.
  - Oversees undergraduate students on various laboratory tasks, including data entry across multiple sources and timepoints, medical record review, and behavioral coding.
- 2019-2020      Graduate Research Assistant, The University of North Carolina- Chapel Hill  
Mood, Mother, and Infant Study, P.I. Dr. Alison Stuebe
- Led assessment of children's cognitive abilities at the 5-year child follow-up.
- 2015-2019      Education Analyst, RTI International
- Served in a range of capacities for research studies of varying magnitudes and complexities. Projects surrounded early childhood health and development, K-5 education, children with special health care needs, family health, and genetics services.

*Selected Projects at RTI International:*

Kids Activity and Learning Study, P.I. Dr. Michael Willoughby.

- Co-developed, oversaw, and carried out protocols for preschool and family recruitment, data collection, data management, and analysis. Trained full-time primary data collector on all data collection activities.
- Managed the planning, assessment, and scoring for hundreds of preschool children on the domains of cognitive and motor functioning at multiple timepoints over an academic year.
- Oversaw study IRB and reporting of yearly expenditures and activities to the funding agency.

Computer Games for Learning Study, P.I. Dr. Michael Willoughby

- Coordinated with the IRB, developed study protocols, gathered assessments, liaised with school coordinators.

Making Pre-K Count, P.D. Dr. Jean Lennon

- Assisted with instrument development, coordination of project materials, training and certifying field interviewers, and school recruitment.

Our Fragile X World (OFXW) P.I. Dr. Don Bailey

- Coordinated data management across numerous enrollments and surveys; responsible for cleaning and coding data with complex logic and multiple children per family (3,600 children, 1,800 families); created pre-loads for surveys based on eligibility criteria.
- Conducted statistical analyses by choosing appropriate analyses, fitting models, and summarizing analyses and results for various manuscripts and presentations.

New York Mid-Atlantic Genetics Consortium (NYMAC), P.D. Dr. Melissa Raspa

- Developed surveys, evaluation plans, and logic models.
- Responsible for all data management and analysis. Contributed to products for dissemination and publication.

2013-2015

Graduate Research Assistant, Johns Hopkins Bloomberg School of Public Health  
Prenatal Indicators of Child Self-Regulation Study, P.I. Dr. Kristin Voegtline

- Employed SAS programming to clean, code, and analyze maternal antenatal psychiatric measures, child behavioral outcomes, and child cortisol.
- Assisted with data collection by scheduling home visits, collecting data from parents and children during home visits, and organizing and prepping materials.
- Trained and supervised research assistants on data collection procedures and coding.

Fall  
2014

Graduate Student Intern, Maryland Center for Developmental Disabilities  
Director: Dr. Christopher Smith

- Employed SAS and MPlus to clean, code, and analyze longitudinal data for a weight management intervention.

Summer  
2014

Graduate Student Intern, Epidemiology Branch of the NICHD  
Upstate KIDS Study, P.I. Dr. Edwina Yeung

- Employed SAS programming to clean, code, and analyze time-to-event data for achievement of infants' gross motor developmental milestones.

2010-2013

Undergraduate Research Assistant, Pennsylvania State University  
Infant and Child Temperament Study, P.I. Dr. Cynthia Stifter

- Performed data collection with infant and mother research participants as a facilitator of lab visits for the longitudinal study when infants were 6, 12, and 18 months old. Collaborated in teams to code maternal and infant behavior.

**PUBLICATIONS**

---

**Peer-Reviewed Manuscripts**

Willoughby MT, Hudson K, Hong Y, **Wylie AC**. Brief Report: Motor competence contributes to executive function and numeracy skills in early childhood. *Developmental Psychology*. In Press.

Wheeler AC, **Wylie A**, Raspa M, Villagomez A, Miller K, Edwards E, DeRamus M, Appelbaum P, Bailey DB. Decisional Capacity for Informed Consent in Males and Females with Fragile X Syndrome. *J Autism Dev Disord*. 2020 May; 50(5):1725-1747. PubMed PMID: 30825084.

Willoughby MT, Hong Y, Hudson K, **Wylie A**. Between and Within-Person Contributions of Simple Reaction Time to Executive Function Skills in Early Childhood. *J Exp Child Psychol*. 2020 Apr; 192: 104779. Epub 2020 Jan 14. PubMed PMID: 31952815.

Willoughby MT, **Wylie AC**, Blair C. Using Repeated Measures Data to Make Stronger Tests of the Association between Executive Function Skills and Attention Deficit/Hyperactivity Disorder Symptomatology in Early Childhood. *J Abnorm Child Psychol*. 2019 Nov; 47(11): 1759-1770. PubMed PMID: 31089981; PubMed Central PMCID: PMC6984755

McCormack LA, **Wylie A**, Moultrie R, Furberg RD, Wheeler AC, Treiman K, Bailey DB, Raspa M. Supporting Informed Clinical Trial Decisions: Results from a Randomized Controlled Trial Evaluating a Digital Decision Support Tool for Those with Intellectual Disability. *PLoS ONE*. 2019 Oct; 14(10): e0223801. PubMed PMID: 31644588; PubMed Central PMCID: PMC6808417.

**Wylie A**, Sundaram R, Kus C, Ghassabian A, Yeung EH. Maternal Pre-Pregnancy Obesity and Achievement of Infant Motor Developmental Milestones in the Upstate KIDS Study. *Obesity (Silver Spring)*. 2015 Apr; 23(4): 907–913. Epub 2015 Mar 7. PubMed PMID: 25755075; PubMed Central PMCID: PMC4380825.

### Under Review

Camerota M, **Wylie AC**, Goldblum J, Wideman L, Cheatham CL, Propper CB. Testing a cascade model linking prenatal inflammation to child executive function. PsyArXiv. [Pre-print] <https://doi.org/10.31234/osf.io/jtav6>.

### Book Chapters

Kick M, Colgan S, **Wylie A**, Bailey DB. Promoting family outcomes in early intervention. In J. Kauffman, D. Hallahan, & P. Pullen (Eds.), *Handbook of Special Education 2017*; 2nd Ed., 811-828. New York: Routledge.

### Selected Posters and Presentations

**Wylie AC**, Propper C, Willoughby MT, Camerota C, Short S. Maternal Prenatal Metal Exposures and Indices of Neonatal Brain Development: Moderations by Maternal Psychological and Social Stressors. Oral Presentation. Society for Research in Child Development Biennial Meeting. April 2021. Virtual due to COVID-19.

Gomes L, **Wylie AC**. The Effects of Maltreatment in Childhood and Adolescence on HPA Axis Activity: A Meta-Analysis. Oral Presentation. Society for Research in Child Development Biennial Meeting. April 2021. Virtual due to COVID-19.

Loubier L, Short S, **Wylie AC**, Bar, J, Propper C. Prenatal Perceived Stress and Financial Strain on Infants' Cognition: The Role of Maternal Attention-Recruiting Behaviors. Poster Presentation. Society for Research in Child Development Biennial Meeting. April 2021. Virtual due to COVID-19.

**Wylie AC**, Camerota M, Goldblum J, Cheatham C, Wideman L, Propper C. Maternal Prenatal Inflammatory Biomarkers and Child Executive Functions: Cascading Effects Through Infant Cognition. Poster Presentation. International Society for Developmental Psychobiology Conference. October 2020. Virtual due to COVID-19.

Goldblum JE, **Wylie AC**, Propper C. Sustained Attention in Infancy: An Early Marker of Enhanced Biological Sensitivity to Context. Poster Presentation. International Society for Developmental Psychobiology Conference. October 2020. Virtual due to COVID-19.

**Wylie AC**, Wang G, Rong X, Propper C, Short S. Testing Multiple Risk Factors Associated with Maternal Prenatal Inflammation and Infant Amygdala Volumes. Poster Presentation. Flux Society for Cognitive Neuroscience Annual meeting. September 2020. Virtual due to COVID-19.

McCormack L, **Wylie A**, Rupert D, Moultrie R, Raspa M, Furberg R, Wheeler AC. Engaging Individuals with Intellectual Disability in Clinical Trial Decision-Making Through an Interactive Decision Support Tool. Poster Presentation. American Psychological Association's Division 33 on Intellectual and Developmental Disabilities/Autism Spectrum Disorder (IDD/ASD) Convention. August 2019. Chicago, IL.

**Wylie AC**, Jones AM, Willoughby MT. Testing the Effect of Physical Activity and ADHD Symptoms on Executive Functions in Early Childhood. Poster Presentation. Society for Research in Child Development Biennial Meeting. Baltimore, MD. March 2019.

Jones AM, **Wylie AC**, Willoughby MT. Testing Observations of Physical Activity and Play as Predictors of Executive Function in Early Childhood. Poster Presentation. Society for Research in Child Development Biennial Meeting. Baltimore, MD. March 2019.

Willoughby MT, **Wylie AC**, Jones AM. Motor Proficiency—Not Moderate to Vigorous Physical Activity—is Related to Executive Function Skills in Early Childhood. Oral Presentation. Movementis Conference. Boston, MA. July 2018.

Wheeler AC, Miller S, Edwards A, **Wylie A**, Okoniewski C, Moultrie R. Stress, Daily Hassles, and Coping in Mothers of Children with Fragile X Syndrome. Oral Presentation. Gatlinburg Conference on Research and Theory in Intellectual and Developmental Disabilities. San Diego, CA. April 2018.

Lennon J, **Wylie A**. Can the U.S. Assess Developmentally 'On Track' in Early Childhood? A Look at the Available Data." Oral Presentation. Society for Research in Child Development Biennial Meeting. Austin, TX. April 2017.

Wheeler AC, Raspa M, **Wylie A**, Bishop E, Bailey D. "Health and Well-Being Among Non-Affected and Premutation Siblings of Individuals with Fragile X Syndrome." Oral Presentation. International Conference on the FMR1 Premutation, Siges, Spain. October 2015.

Ghassabian A, Sundaram R, **Wylie AC**, Bell E, Bello SC, Yeung EH. "Maternal Medical Conditions During Pregnancy and Children's Gross Motor Development Up to Age 24 Months in the Upstate KIDS Study." Oral Presentation. Society for Epidemiological Research Annual Meeting and Society for Pediatric and Perinatal Epidemiologic Research Annual Meeting. Denver, CO. June 2015.

#### **GRANTS- AWARDED**

---

2021-2022	Principal Investigator, "Testing the feasibility of using silicone bands to ascertain exposure to environmental contaminants in children younger than 3." North Carolina Translational and Clinical Sciences (NC TraCS) Institute at UNC-Chapel Hill, \$2,000 in direct costs
2021	Proposal Leader, "Testing mothers' silicone wristbands collected at 6- and 18-months postpartum for household chemicals associated with child neurodevelopment." Human Health Exposure Analysis Resource (HHEAR) Program Pilot & Feasibility Grant, \$25,000 in direct costs
2021	Collaborator, "Prenatal Arsenic Exposure and Infant Development at 6 months of age: The Role of the Gut Microbiota." Center for Environmental Health and Susceptibility (CEHS) Pilot Project Program, \$50,000 in direct costs.

#### **GRANTS- APPLIED**

---

2021	Principal Investigator, "Latent profiles of prenatal exposure to toxic metals and psychosocial risk and protective factors: testing associations with child developmental outcomes and moderations by caregiving experience." National Institutes of Health Ruth L. Kirschstein National Research Service Award (NRSA) Individual Predoctoral Fellowship (Parent F31).
------	--

- 2021 Collaborator, "The joint impact of prenatal psychosocial stressors and toxic metal exposure on infants' brain and behavioral development in a low-income sample." University of Wisconsin Fall Research Competition.

### TEACHING ACTIVITIES

---

- Fall 2021 Instructional Assistant, Social Media, Technology, & the Adolescent Brain, University of North Carolina- Chapel Hill. Instructor of Record: Rosa Li, Ph.D.
- Summer 2021 Instructional Assistant, Research Methods, University of North Carolina- Chapel Hill. Instructor of Record: L. Grant Canipe, Ph.D.
- Fall 2020 Instructional Assistant, Introduction to Psychology, University of North Carolina- Chapel Hill. Instructor of Record: Jeannie Loeb, Ph.D.
- Spring 2015 Teaching Assistant, Reproductive and Perinatal Epidemiology, Johns Hopkins Bloomberg School of Public Health. Instructors of Record: Donna Strobino, Ph.D. And Caroline Moreau, Ph.D.

### PROFESSIONAL DEVELOPMENT

---

- Aug 2021 "Environmental Mixtures Workshop: Applications in Environmental Health Studies" By Columbia University. Online due to COVID-19.
- Dec 2020 "Geospatial Data Analysis" by Data Matters. Chapel Hill, NC.
- May 2018 "IRT Pro" by Scientific Software International, Inc. Chicago, IL.
- June 2016 "Structural Equation Modeling" by Curran-Bauer Analytics. Chapel Hill, NC.
- June 2016 "Longitudinal structural equation modeling" by Curran-Bauer Analytics. Chapel Hill, NC.

### HONORS AND AWARDS

---

- 2019 North Carolina Excellence Fellowship, University of North Carolina at Chapel Hill
- 2018 Highly Published Author, RTI International
- 2015 Master's Essay with Distinction, Department of Population, Family, and Reproductive Health, Johns Hopkins Bloomberg School of Public Health
- 2014 Maternal and Child Health Training Grant from the Maternal and Child Health Bureau, awarded through the Johns Hopkins Bloomberg School of Public Health
- 2014 Wendy Klag Center for Autism and Developmental Disabilities Memorial Scholar, Johns Hopkins Bloomberg School of Public Health

### SERVICE

---

- 2021 Graduate Student Representative to the UNC-CH Developmental Psychology program
- 2021 Justice, Equity, Diversity, and Inclusion - Graduate Recruitment & Retention subcommittee member for the UNC-CH Psychology and Neuroscience Department
- Ad-hoc peer reviewer with faculty advisor, Dr. Propper
- 2020-2021 UNC-CH Developmental Psychology Seminar Series Planning Committee Member
- 2021 UNC-CH Developmental Psychology Interview Day Planning Committee Member
- 2018-2019 Marbles Children's Museum Big Kids Corps Volunteer Member
- 2017-2019 RTI International Women's Leadership & Advancement Working Group Member

### MENTORSHIP

---

- 2021-2022 Undergraduate psychology student, UNC-CH, Selma Sabra  
Senior honors thesis: "*Exploring the unique and joint impacts of early life exposure to stress and breastfeeding on toddler language development.*"
- 2020-2021 Undergraduate psychology student, UNC-CH, Lindsay Loubier  
Senior honors thesis: "*Prenatal perceived stress and financial strain on infants' cognition: the role of maternal engaging behaviors.*"
