

# Justin Lessler

## Contact

McGavran-Greenberg Hall  
 135 Dauer Drive  
 Chapel Hill NC, 27599  
 Phone: +1 919 599 2133  
[jlessler@unc.edu](mailto:jlessler@unc.edu)

## Education

2008	PhD	Epidemiology, Johns Hopkins Bloomberg School of Public Health
2008	MHS	Biostatistics, Johns Hopkins Bloomberg School of Public Health
2003	MS	Computer Science, Stanford University
1996	BS	Mathematical Sciences, University of North Carolina, Chapel Hill
1992	AA	Simon's Rock of Bard College

## Professional Experience

2021-present	Professor	Dept. of Epidemiology, UNC Chapel Hill
2021-present	Adjunct Professor	Dept. of Epidemiology, Johns Hopkins BSPH
2016-2021	Track Director, Inf. Disease	Dept. of Epidemiology, Johns Hopkins BSPH
2015-2021	Associate Professor	Dept. of Epidemiology, Johns Hopkins BSPH
2015	RAPIDD Member	Fogarty International Center
2011-2015	Assistant Professor	Dept. of Epidemiology, Johns Hopkins BSPH
2008-2011	Research Associate	Dept. of Epidemiology, Johns Hopkins BSPH
2004-2008	Research Assistant	Dept. of Epidemiology, Johns Hopkins BSPH
2007-2008	Epidemiologic Consultant	IBM
1999-2004	Staff Software Engineer	IBM Almaden Research Center
1996-1999	Software Engineer	Tivoli (an IBM company)
1996	Summer Research Fellow	National Institute of Environmental Health Sciences

## Honors and Awards

August 2024	Simons Foundation Fellowship, Isaac Newton Institute for Mathematical Sciences
2017	Delta Omega Honor Society (Alpha Chapter), Johns Hopkins
2016	Golden Apple, small class size, Johns Hopkins
2016	Advising, Mentoring, and Teaching Recognition Award (AMTRA)
April 2016	Outstanding Course Recognition: Concepts and Methods in Infectious Disease Epidemiology, Johns Hopkins
June 2015	Outstanding Course Recognition: Infectious Disease Dynamics, Johns Hopkins
May 2014	Visiting Fellow, Program on Infectious Disease Dynamics Follow-up, Isaac Newton Institute.
Fall 2013	Visiting Fellow, Program on Infectious Disease Dynamics, Issac Newton Institute
2006	Doctoral Seminar Award for Scholarship, Creativity, and Conversational Courage, Johns Hopkins
April 2004	First Plateau Invention Achievement Award, IBM
June 2003	Bravo Award, IBM
December 2002	Research Division Award, IBM
August 2001	First Patent Application Invention Achievement Award, IBM
July 1998	Distinguished Contribution Award, IBM

## Memberships

American Association for the Advancement of Science, since 2003  
Society for Epidemiological Research, since 2004  
American Society for Tropical Medicine and Hygiene, since 2012

## Bibliography and Products of Scholarship

\* indicates a UNC or JHSPH student or trainee; \*\* indicates an GIDTRP student or trainee; † indicates corresponding authorship; ‡ indicates equal contribution

### Peer-Reviewed Publications (215 total)

## Patents (7 total)

1. Method and system for knowledge repository exploration and visualization (No. 6,725,217). Chow AW, Kreulen JT, Lessler JT, Proctor LL, Spangler WS. *granted*
2. Managing activity reuse in a collaborative computing environment . Ruvolo J, Lessler J, Moran TP, Muller M, Tang JC, Gruen DM, Moody PB, Stachel RJ, Minassian SO. *published*
3. Method for synchronizing documents for disconnected operation (No. 9,104,689). Edlund SB, Ruvolo J, Lessler JT, Baratham SSS. *granted*
4. Method for automatically finding frequently asked questions in a helpdesk data set (No. 6,804,670). Kreulen JT, Lessler JT, Sanchez MP, Spangler WS. *granted*
5. Method of generating a context-inference search query and of sorting a result of the query (No. 7,853,574). Kraenzel CJ, Moody PB, Ruvolo J, Moran TP, Lessler JT. *granted*
6. Text Explanation for On-Line Analytic Processing Events (No. 7,383,257). Cody WF, Krishna V, Lessler JT, Spangler WS, Kreulen JT. *granted*
7. System and method for dynamically tracking user interests based on personal information (No. 8,838,588). Ruvolo J, Edlund SB, Krishna V, Lessler JT, Kraenzel CJ. *granted*

3. **Lessler J** (2022) Using Models to Inform Policy in an Emerging Crisis: Forecasting and Scenario Modeling in the COVID-19 Pandemic. Wake Forest University 2022 Conference on Analytics Impact. (*Invited Talk*)
4. **Lessler J** (2021) Rt: a decent summary statistic. Royal Statistical Society's Special Topic Meeting on COVID-19 Transmission. (*Invited Discussant*)
5. **Lessler J** (2020) Lessons in translational research from the COVID-19 pandemic conference: SER Digital. . (*Invited Oral*)
6. **Lessler J** (2020) What makes a test-trace-isolate program work: a modeling framework and evaluation tool. COVID-19 Dynamics and Evolution. (*Invited Oral*)
7. **Lessler J** (2020) Transmission and Control of COVID-19. AACR COVID-19 and Cancer Virtual Meeting. (*Invited Oral*)
8. **Lessler J** (2020) Leveraging public health response to understand COVID-19 dynamics in Shenzhen China. The 2nd Symposium on Global Health, Shanghai China. (*Invited Oral*)
9. **Lessler J** (2020) Lessons in translational research from the COVID-19 pandemic. SER Digital. (*Invited Oral*)
10. **Lessler J** (2020) Practical Questions in COVID-19 Epidemiology and Control. Summer Sinus Symposium. (*Plenary*)
11. **Lessler J** (2019) Understanding Cholera Dynamics for Public Health. *Epidemics*<sup>7</sup>. (*Plenary*)
12. **Lessler J** (2019) Sample Design for Phylogenetic Inference: Thoughts and Basic Results. Applied Bioinformatics and Public Health Microbiology. (*Invited Oral*)
13. **Lessler J** (2018) Linking geospatial and molecular data: from dengue in Thailand to cholera in Africa. Bill and Melinda Gates Foundation Grand Challenges Meeting. (*Invited Oral*)
14. **Lessler J** (2018) Public health action in the face of uncertainty, where the rubber hits the road.. Society for Epidemiological Research Annual Meeting. (*Invited Oral*)
15. **Lessler J**, Moore SM, Graham M, Azman AS, McKay HS (2015) Beyond endemicity. Taxonimizing the epidemic dynamics of cholera and measles.. *Epidemics*<sup>5</sup>. (*Oral*)
16. **Lessler J**, Read JM, Jiang CQ, Tan L, Riley S, Cummings DAT (2015) Is it Groundhog Day? Year-to-year consistency of human contact patterns in southern China.. *Epidemics*<sup>5</sup>. (*Poster*)

17. **Lessler J**, The MERS-CoV Scenario and Modeling Working Group (2015) How Big Is the Iceberg? Estimating the severity and subclinical burden of MERS-CoV infection in the Kingdom of Saudi Arabia. Society for Epidemiological Research Annual Meeting. (*Invited Oral*)
18. **Lessler J** (2015) Recreating historic patterns of influenza incidence from cross-sectional serological data. Society for Epidemiological Research Annual Meeting. (*Oral*)
19. **Lessler J** (2013) Recreating historic patterns of influenza incidence from cross-sectional serological data. *Epidemics*<sup>4</sup>. (*Oral*)
20. **Lessler J**, Cummings DAT, Riley S, Read JM, Kucharski A, Zhu H, Guan Y, Jiang CQ (2013) Immune landscapes and small scale influenza dynamics in southern China: The fluscape study.. 141st APHA Annual Meeting and Expo. (*Invited Oral*)
21. **Lessler J** (2012) A Graphical Approach to Decision Making in Epidemics. Joint Statistical Meetings. (*Invited Oral*)
22. **Lessler J**, Metcalf CJ, Grais RF, Luquero FJ, Cummings AT, Grenfell BT (2012) The Coverage of Measles Vaccination Activities in Selected Countries of Africa and Asia. *Epidemics*<sup>3</sup>. (*Oral*)
23. **Lessler J**, Reich NG, Iamsirithaworn S, Cummings DAT (2011) Prediction and Imputation of Spatio-Temporal Data: Dengue Surveillance in Thailand. Society for Epidemiologic Research Annual Meeting. (*Poster*)
24. **Lessler J**, Reich N, Brookmeyer R (2010) Estimating case fatality ratios from infectious disease surveillance data. Society for Epidemiologic Research Annual Meeting. (*Poster*)
25. **Lessler J**, Reich NG, Iamsirithaworn S, Cummings DAT (2009) Early detection of dengue outbreaks in Thailand using a spatio-temporal hidden state surveillance model. *Epidemics*<sup>2</sup>. (*Oral*)
26. **Lessler J**, Read JM, Riley SR, Cummings DAT (2009) The use of satellite imagery in contact/travel questionnaires. Society for Epidemiologic Research Annual Meeting. (*Poster*)
27. **Lessler J**, Lowther SA, Moss WJ, Cummings DAT (2008) Achieving and Maintaining High Coverage of Measles Immunization in Zambia. Society for Epidemiologic Research Annual Meeting. (*Poster*)
28. **Lessler J**, Chartpituck P, Iamsirithaworn S, Cummings DAT (2008) Calculation of R in Outbreak Investigations: Influenza in Thailand. Society for Epidemiologic Research Annual Meeting. (*Poster*)
29. **Lessler J**, Brookmeyer R, Perl T (2007) Classifying Healthcare Associated Infections Using Date of Onset. International Biometrics Society, Eastern North American Region, Spring Meeting. (*Oral*)
30. **Lessler J**, Niina H, Kaufman J, Burke DS (2006) A Computational Model of Evolvable Viruses in Populations: Applications to Poliovirus Eradication. DIMACS Workshop on Facing the Challenge of Infectious Diseases in Africa: The Role of Mathematical Modeling. (*Poster*)
31. **Lessler J**, Kaufman J, Burke DS (2006) A Computational Model of Vaccine Derived Poliovirus Epidemics. Ninth Annual Conference on Vaccine Research. (*Poster*)
32. **Lessler J**, Cummings DAT, Burke D (2005) Stochastic Simulation of the "Swine Flu" Outbreak at Fort Dix. American Public Health Association 133rd Annual Meeting & Exposition. (*Poster*)

## Invited Seminars (48 total)

December, 2022	Scenario Planning Models in the Pandemic Response, Looking back on two and a half years of operational modeling Yale School of Public Health.	Hartford, CT
August 2022	Running and Evaluating a Multi-team Scenario Modeling Effort for COVID-19, Looking back on two and a half years of operational modeling Federal Reserve Bank of Atlanta.	Atlanta, GA
August 2022	Running and Evaluating a Multi-team Scenario Modeling Effort for COVID-19, Looking back on two and a half years of operational modeling UNC Carolina Population Center.	Chapel Hill, NC

February 2021	Understanding COVID-19 transmission: from households to populations Cincinnati Children's, Current Topics in COVID-19 Research.	Online
January 2021	Understanding SARS-CoV-2 using Contact Tracing and Household Data COPSS-NISS COVID-19 Webinar Series.	Online
September 2020	Insights into SARS-CoV-2 Transmission and Control McGill IHSP Policy Talks Webinar Series.	Online
June 2020	What models tell us about the past and future of COVID-19 University of Colorado Department of Medicine.	Online
March 2020	"Update on the COVID-19 Response: Insights and Activities" Johns Hopkins Welch Center.	Online
March 2020	Novel Coronavirus COVID-19:Early Insights into Epidemiology and Impact Johns Hopkins Tropical Medicine Dinner Club.	Baltimore MD
June 2019	An enemy or a friend? How spatial clustering of risk works for us and against us in infectious disease control. Imperial College.	London UK
March 2019	An enemy or a friend? How spatial clustering of risk works for us and against us in infectious disease control. Emory University.	Atlanta GA
October 2017	Maps, Models and Immunity: Practical Approaches to Heterogeneity in Infectious Disease Risk University of Georgia Athens.	Athens GA
February 2017	Maps, Models and Immunity: Practical Approaches to Heterogeneity in Infectious Disease Risk Duke University.	Durham NC
December 2016	Time to Key Events in the Natural History of Zika Virus Infection: Estimation and Implications Howard University.	Washington DC
December 2016	Time to Key Events in the Natural History of Zika Virus Infection: Estimation and Implications National Institutes of Health.	Washington DC
August 2016	Mysteries and Challenges in Measuring the Effectiveness of Oral Cholera Vaccines <i>Simulating Intervention Trials in Infectious Diseases.</i> MIDAS.	Seattle, WA
October 2015	Maps, Models and Immunity: Practical Approaches to Heterogeneity in Infectious Disease Risk University of North Carolina, Chapel Hill.	Chapel Hill NC
October 2015	Maps, Models and Immunity: Practical Approaches to Heterogeneity in Infectious Disease Risk Johns Hopkins Bloomberg School of Public Health.	Baltimore MD
September 2015	Model Motivated Study Design. <i>Workshop on Integrating mathematical models with the design and analysis of clinical trials to assess the efficacy of disease prevention and control interventions.</i>	Minneapolis MN
September 2015	Measles and Ebola: A case study in raising the alarm and supporting local response. <i>Learning from Ebola: Reflections from the Frontlines.</i> Johns Hopkins Bloomberg School of Public Health.	Baltimore MD
June 2015	Mapping and Classifying Cholera Incidence Africol.	Lome, Togo
February 2015	Measuring Measles Measles Immunity at the Edge of Elimination Immunization an Vaccine Access Center.	Baltimore MD
February 2015	Progress Toward a Lifecourse Approach to Influenza Epidemiology University of Pittsburgh Graduate School of Public Health.	Pittsburgh PA
December 2014	Mapping and Classifying Cholera Incidence <i>Cholera Round Table.</i>	Kinshasa DRC
October 2014	Methods for Reducing Spatial Uncertainty and Bias in Disease Surveillance (R01AI102939) NIH Webinar.	Online

May 2014	Cholera Modeling at Johns Hopkins: Linking Modeling and Public Health Practice Bill and Melinda Gates Foundation.	Seattle WA
February 2014	Inferring Transmission Dynamics From Cross-sectional Serologies: Challenges and Results from the Fluscape Study. National Institutes of Health.	Bethesda MD
February 2014	The Incubation Period of Viral Gastroenteritis: Results of a Systematic Review and Implications <i>JHU-Water, Sanitation and Hygiene Meeting.</i>	Baltimore MD
April 2013	Fluscape, Patterns of Movement, Immunity and Infection <i>RAPIDD Meeting on Human Mobility.</i>	Princeton NJ
July 2013	Antibody Patterns After a Lifetime of Influenza Exposure <i>RAPIDD Meeting on Influenza Lifecourse Epidemiology.</i>	London, UK
May 2013	Analytic Approaches to Investigating HIV Transmission Dynamics. Johns Hopkins University Center for AIDS Research.	Baltimore MD
April 2013	Fluscape, Patterns of Movement, Immunity and Infection Harvard University.	Cambridge MA
March 2013	Measuring Vaccine use in Africa: Coverage and Spatial Patterns <i>RAPIDD Meeting on Vaccine Refusal.</i>	Princeton NJ
February 2013	Fluscape, Patterns of Movement, Immunity and Infection Oxford University.	Oxford, UK
October 2011	Model motivated data collection: The Fluscape Study University of California, Irvine.	Irvine CA
June 2011	Patterns of Influenza A Immunity in Southern China: Preliminary Results From the Fluscape Study Fogarty International Center.	Bethesda, MD
April 2011	Patterns of Influenza A Immunity in Southern China: Preliminary Results of the Fluscape Study New York University Medical Center.	New York NY
November 2011	Measuring the Performance of Vaccination Programs Using Cross-Sectional Surveys <i>RAPIDD Vaccine Refusal Workshop.</i>	Princeton NJ
December 2010	Making Inferences about Infection Using the Incubation Period <i>Hospital Epidemiology and Infection Control, Clinical Conundrum.</i> Johns Hopkins Hospital.	Baltimore MD
August 2010	Influenza A Neutralization Patterns by Age and Location: Preliminary Results from the Fluscape Project <i>Shanghai World Expo.</i>	Shanghai, China
July 2010	Missing and Coarsely Observed Data in Infectious Disease Studies: Three Vignettes New York City Department of Health and Mental Hygiene.	New York NY
May, 2010	Dynamics and Natural History of H1N1: Early Findings and Implications IBM Almaden Research Center.	San Jose CA
March, 2010	Dynamics and Natural History of H1N1: Early Findings and Implications Drexel University.	Philadelphia PA
November 2009.	Dynamics and Natural History of H1N1, Preliminary Findings Center for Biosecurity of UPMC.	Baltimore MD
October 2009	"Webinar: Swine Online '09" Center for Talented Youth.	Online
February 2009	Detecting Health Care-Associated Infections Using Date of Symptom Onset University of North Carolina, Chapel Hill.	Chapel Hill NC
March 2007	The Mathematics of Outbreak Investigations James Madison University Department of Mathematics.	Harrisonburg VA
February 2006	Modeling Emerging Influenzas: Fort Dix 1976 James Madison University Department of Mathematics.	Harrisonburg VA

## Contracts and Grants

### Active

**CDC Center for Forecasting and Outbreak Analytics** 10/2023-9/2028  
**Justin Lessler/Kimberly Powers (PI)** \$ 22,118,415 (Total Costs)

ACCIDDA aims to lay the foundational groundwork for a faster and more coordinated response to future infectious disease threats through development and extension of innovative modeling and analytic techniques, establishment of new data streams, better harmonization of existing data streams, and training a new generation of epidemic modeling experts with close ties to public health practice. Further, ACCIDDA serves as coordinating center for Insight Net, a network of 13 centers encompassing over 100 organizations aimed at supporting public health response at national, state and local levels in the event of an emerging infectious disease crisis and advancing the operational structures needed in such a response and the science underlying these.

**Role: Principal Investigator**

1-NU38-FT000012-01

**NIH-NIGMS** 2/2021-12/2024  
**Justin Lessler/Jessie Edwards (PI)** \$ 1,543,472 (Total Costs)  
**Merging machine learning and mechanistic models to improve prediction and inference in emerging epidemics**

This project aims to develop a framework to forecast incidence in ongoing outbreaks that merges mechanistic and machine learning approaches; validate the framework using retrospective data and supply the framework to inform decision making in emerging epidemics; develop accessible and extensible tools for forecasting and decision analysis in infectious diseases epidemics

**Role: Principal Investigator 25% FTE**

R01GM140564

**Centers for Disease Control and Prevention** 9/2021-8/2024  
**Utah (PI)** \$ 300,000 (Total Costs)  
**Research to Improve National and Global Responses to Emerging Health Threats: Accelerating the Integration of Novel Data Streams in Mathematical Models**  
Work aims to better use data in the response to pandemics and other infectious disease threats.

**Role: Investigator (UNC PI) 10% FTE**

**Centers for Disease Control and Prevention** 9/2021-8/2024  
**Shaun Truelove (PI)** \$ 425,135 (Total Costs)  
**Research to Improve National and Global Responses to Emerging Health Threats: Accelerating Mathematical Modeling Implementation**  
Work aims to better use models in the response to pandemics and other infectious disease threats.

**Role: Investigator (UNC PI) 23% FTE**

**Bill and Melinda Gates Foundation**

**Andrew Azman (PI)** \$ 518,734 (Total Costs)  
**Cholera burden and transmission modeling**  
Identify geographic extent of connected transmission units for cholera in Africa and other cholera endemic regions.  
**Role:** Investigator (UNC PI) 10% FTE

## Completed

**NC DHHS Division of Public Health (DPH)** \$ 15,000,000 (Total Costs)  
(PI)  
**North Carolina Coronavirus Variant Sequencing (CORVASEQ) Statewide Surveillance Initiative**  
**Role:** Investigator 16% FTE

**Bill and Melinda Gates Foundation** 9/2019-7/2022  
**Justin Lessler (PI)** \$ 1,892,000 (Total Costs)  
**Cholera Burden and Transmission Modeling**  
**Role:** Principal Investigator 20% FTE  
INV-002667

**Bill and Melinda Gates Foundation** 5/2020-10/2021  
**Justin Lessler (PI)** \$ 200,000 (Total Costs)  
**Seeding a West/Central African Cholera Genomic Surveillance Network**  
**Role:** Principal Investigator 10% FTE  
INV-016156

**JHU Applied Physics Laboratory/FEMA/DHHS** 4/2020-4/2021  
**Justin Lessler (PI)** \$ 345,678 (Total Costs)  
**COVID-19 Response**  
**Role:** Subcontract PI 20% FTE  
WA 162740

**Bill and Melinda Gates Foundation** 7/2018-6/2021  
**Justin Lessler (PI)** \$ 666,969 (Total Costs)  
**Harnessing Synergies between Epidemiologic and Genetic Data to Understand Cholera Transmission in Africa**  
**Role:** Principal Investigator 20% FTE

## **Professional Service**

### **Departmental, School and University**

#### **Committee Memberships**

2022-present	SDSS Pan-Campus Advisory Council University of North Carolina Chapel Hill	Gillings Representative
2022-present	Department of Epidemiology Admissions Committee UNC Gillings School of Global Public Health	Member
2020-2021	Department of Epidemiology Doctoral Training Review Committee Johns Hopkins Bloomberg School of Public Health	Member
2020-2021	Department of Epidemiology Curriculum Committee Johns Hopkins Bloomberg School of Public Health	Member
2016-2017	Department of Epidemiology Admissions and Credentials Committee Johns Hopkins Bloomberg School of Public Health	Co-chair
2016	Ad-hoc promotions committee Johns Hopkins Bloomberg School of Public Health	Member
2016	Tenure track Epidemiology faculty search committee Johns Hopkins Bloomberg School of Public Health	Member
2015-2016	Department of Epidemiology Admissions and Credentials Committee Johns Hopkins Bloomberg School of Public Health	Member

2012-2014	Department of Epidemiology Admissions and Credentials Committee Johns Hopkins Bloomberg School of Public Health	Member
2012	The Committee for the 21st Century Welch Library Johns Hopkins Bloomberg School of Public Health	Member
2008-2010	Environmental Stewardship Committee Johns Hopkins Bloomberg School of Public Health	Department Representative
2007-2008	Department of Epidemiology Curriculum Committee Johns Hopkins Bloomberg School of Public Health	Student Representative
2007-2008	Environmental Stewardship Committee Johns Hopkins Bloomberg School of Public Health	Student Representative
2007	Educational Technology Strategic Plan Subcommittee Johns Hopkins Bloomberg School of Public Health	Student Representative
2004-2005	Committee on Information Technology Johns Hopkins Bloomberg School of Public Health	Student Representative

## Other Service

2023-present	Co-director Infectious Disease concentration UNC Epidemiology
2022, 2023	Co-wrote infectious disease concentration qualifying exam. UNC Epidemiology
2021-2023	COVID-19 Modeling to support UNC return to campus efforts. UNC University Wide
2016-2021	Infectious disease track director JHSPH Epidemiology
2008-2016	Infectious Disease Epidemiology Student/Faculty Social Event Organizer JHSPH Epidemiology
2012	Co-wrote comprehensive exam part B for Infectious Disease concentration. JHSPH Epidemiology
2011	Worked with Bill Moss and Shruti Mehta to revise the Infectious Disease Concentration curriculum and required courses JHSPH Epidemiology
2010	Co-wrote comprehensive exam part B for Infectious Disease concentration. JHSPH Epidemiology

## National and International

### Advisory Panels

February 2016	Panel Member, Meeting on Inactivation Protocols <i>U.S. Government Accountability Office</i>
April 2011	Technical Adviser, Rubella Working Group <i>WHO Strategic Advisory Group of Experts on Immunization (SAGE)</i>
2009	Member, Working Group on Influenza A (H1N1) <i>WHO Informal Network on Mathematical Modeling</i>

## Grant Review Panels

November 2023-present	Microbiology and Infectious Diseases B Research Study Section <i>National Institutes of Health – Study Section - standing member – MID-B</i>
April 2023	Special re-review panel <i>National Institutes of Health – Special Review Panel</i>
March 2021	Infectious Diseases, Reproductive Health, Asthma and Pulmonary Epidemiology (IRAP) <i>National Institutes of Health – Study Section – ZRG1-PSE-H-70</i>
March 2019	NIH Directors Early Independence Award Review <i>National Institutes of Health – Special Emphasis Panel – ZRG1 PSE-N</i>
February 2019	Clinical Research and Field Studies of Infectious Diseases (CRFS) <i>National Institutes of Health – Study Section</i>
October 2018	International Research in Infectious Diseases including AIDS <i>National Institutes of Health – Special Emphasis Panel – ZRG1-PSE-D-55</i>
June 2018	Pulmonary, Kidney and Mental Health Disease Member Conflict Special Emphasis Panel <i>National Institutes of Health – Special Emphasis Panel</i>
June 2018	Modeling and Analysis of Biological Systems (MABS) <i>National Institutes of Health – Study Section</i>
December 2017	International Research in Infectious Diseases including AIDS <i>National Institutes of Health – Special Emphasis Panel – ZRG1-PSE-D-55</i>
May 2017	Rapid Assessment of Zika Virus (ZIKV) Complications (R21) <i>National Institutes of Health – Special Emphasis Panel – ZAI1 LG-M (M3)</i>
November 2016	Infectious Diseases, Reproductive Health, Asthma and Pulmonary Epidemiology (IRAP) <i>National Institutes of Health – Study Section</i>
August 2016	Reviewer, Canada-Latin America-Caribbean Zika Virus Program <i>Canadian Institutes of Health Research</i>
August 2016	Ad-hoc reviewer, UK-Indonesia Newton Fund <i>UK Medical Research Council (MRC)</i>
July 2016	Harnessing Big Data to Halt HIV/AIDS <i>National Institutes of Health – Special Emphasis Panel – 2016/10 ZRG1 AARR-F (92) S</i>
July 2016	Topics in Biology of Infectious Diseases Agents, Drug Resistance and Drug Discovery <i>National Institutes of Health – Special Review Panel – ZRG1 IDM-N</i>
January 2015	Ad-hoc reviewer, Indo-US Science & Technology Forum (IUSSTF) <i>AAAS</i>
April 2014	Ad-hoc reviewer, Joint Global Health Trials <i>UK Medical Research Council (MRC)</i>
June 2013	Infectious Diseases, Reproductive Health, Asthma and Pulmonary Epidemiology (IRAP) <i>National Institutes of Health – Study Section</i>
November 2011	NIAID Investigator Initiated Program Project Applications (P01) <i>National Institutes of Health – Special Emphasis Panel – 2012/01 ZAI1 GSM-M (J1)</i>

## Organized Sessions and Round Tables

- December, 2019 Conference organizing committee  
*Epidemics*<sup>7</sup> – Organizing Committee
- November, 2017 Conference organizing committee  
*Epidemics*<sup>6</sup> – Organizing Committee
- June, 2017 Checklists and Registration in Observational Epidemiologic Research: Essential Transparency or Scientific Straight-jacket?  
*Society for Epidemiologic Research Annual Meeting* – Co-chair
- June, 2016 Epidemiologic Inference with Mechanistic Models: Merging the ‘Why’ with the ‘How’  
*Epidemiology Conference of the Americas* – Co-chair
- June, 2015 Ebola, MERS and Chikungunya: methodological issues in responding to emerging disease threats  
*Society for Epidemiologic Research Annual Meeting* – Co-chair
- June, 2012 Measuring Challenging Populations: Is there a need for methodological innovation meeting:  
Society for Epidemiologic Research Annual Meeting  
– Co-chair
- June, 2011 The Role of Predictive Models in Causal Inference  
*Epidemiology Conference of the Americas* – Co-chair
- June, 2010 2009 Pandemic Influenza A (H1N1) Virus Infection: Epidemiology and Response  
*Society for Epidemiologic Research Annual Meeting* – Co-chair

- 2015 Transmission Dynamics *Epidemics*<sup>5</sup>

## Editorial Activities

### Editor

2019-present American Journal of Epidemiology

### Associate Editor

2012-2019 American Journal of Epidemiology (Associate Editor in Residence and Editor pro-tem)

2015-2017 PLoS Computational Biology

2013-2015 BMC Infectious Disease

### Other Editorial Activities

2018-2019	Epidemiologic Reviews, Special Issue on Emerging Infections	Guest Editor
2018	American Journal of Epidemiology, Special Issue on 1918 Pandemic	Guest Editor
2013-present	PLoS Medicine	Statistical Advisor
2016	PLoS Medicine	Guest Editor (1 paper)
2018-2022	PNAS	Outside Editor (4 papers)

## Peer Review Activities

Reviewed for: American Journal of Epidemiology; American Journal of Tropical Medicine and Hygiene; Annals of Internal Medicine; Biosecurity and Bioterrorism: Biodefense Strategy, Practice, and Science; British Medical Journal; Bulletin of Mathematical Biology; Bulletin of the World Health Organization; Clinical and Vaccine Immunology; Computers in Biology and Medicine; Conflict and Health; Emerging Infectious Diseases; Epidemiology; Epidemics; F1000; International Journal of Biostatistics; Journal of Biological Dynamics; Journal of

Research in Medical Sciences; Journal of the Royal Society, Interface; Journal of Theoretical Biology; Nature Physics; Nature Microbiology; Philosophical Transactions of the Royal Society B: Biological Sciences; PLoS Computational Biology; PLoS Medicine; PLoS ONE; PLoS Pathogens; Proceedings of the National Academy of Sciences (PNAS); Psychological Methods; Science; Statistical Communications in Infectious Disease; Statistics in Medicine; The Lancet; The Lancet Infectious Diseases; Theoretical Population Biology

## Consulting Activities

2020	Expert Witness	Paul, Weiss, Rifkind, Wharton & Garrison LLP
2022-2023	Expert Witness	Cohen, Ziffer, Frenchman & McKenna

## Public Health Practice and Communication

(illustrative selection)

### Presentations to policy-makers and other stakeholders

August 2023	Scenario Modeling Hub Round 18 results and takeaways, <i>Advisory Committee on Immunization Practices (ACIP) COVID-19 Vaccine Working Group</i> : Presentation to the ACIP working group on Scenario Modeling Hub rounds aimed at projecting the impact of a reformulated vaccine. Summaries of this presentation were included in the ACIP public meeting and were directly cited in the recommendation for COVID-19 vaccination in fall 2023.
August 2022	Scenario Modeling Hub Round 14 and 15 results and takeaways, <i>Advisory Committee on Immunization Practices (ACIP) COVID-19 Vaccine Working Group</i> : Presentation to the ACIP working group on Scenario Modeling Hub rounds aimed at projecting the impact of a reformulated booster. Summaries of this presentation were included in the ACIP public meeting and were directly cited in the recommendation of bivalent boosters starting September 2022.
2022	Round 14 and 15, Planning scenarios projecting COVID-19 burden through mid-2023 under different booster policies., <i>CDC Regional Collaborative Calls</i> .
August 2022	Scenario Hub Modeling Work Update, <i>Council of State and Territorial Epidemiologists</i> .
June 2022	Modeling Future Epidemiology of the COVID-19 Pandemic, <i>FDA Vaccines and Related Biological Products Advisory Committee</i> .
April 2022	Scenario Hub Modeling Work Update, <i>Council of State and Territorial Epidemiologists</i> .
December 2021	Briefing to NIAID Director on Scenario Modeling Activities, <i>National Institute of Allergies and Infectious Disease</i> : Was part of a team updating Dr. Fauci on Scenario Modeling efforts and the likely impact of the Omicron variant..
December 2021	Updated Testimony on the COVID-19 Pandemic in North Carolina, <i>NC General Assembly Joint Legislative Commission on Governmental Operations Subcommittee on the Use and Distribution on Federal COVID Funding</i> .
November 2021	The History and Future of the COVID-19 Pandemic in North Carolina, <i>NC General Assembly Joint Legislative Commission on Governmental Operations Subcommittee on the Use and Distribution on Federal COVID Funding</i> .
October 2021	Scenario Modeling Hub Round 9, The Impact of Vaccination in Children Ages 5-11, <i>Advisory Committee on Immunization Practices (ACIP) COVID-19 Vaccine Working Group</i> : Summaries of this work were presented in the ACIP public meeting where it was decided to expand vaccination recommendations to children aged 5-11..
June 2021	Scenario Hub Modeling Work Update, <i>Council of State and Territorial Epidemiologists</i> .

April 2020	Briefing on COVID-19 Planning Scenarios, <i>Maryland Health Services and Cost Review Commission</i> .
April 2020	Briefing on COVID-19 Planning Scenarios, <i>US House Energy and Commerce Committee (staff)</i> .
April 2020	Briefing on COVID-19 Planning Scenarios, <i>Maryland General Assembly COVID-19 Working Group</i> .
April 2020	Update on Progress of COVID-19 Epidemic, Forecasts and Planning Scenarios, <i>Maryland General Assembly COVID-19 Working Group</i> .
June 2019	Tracking progress: global database for epi and lab data, <i>Global Task Force for Cholera Control</i> .
June 2018	Post-epidemic Zika, <i>Pan American Health Organization</i> .
April 2019	Forecasting Cholera: lessons from dengue and babysteps, <i>Global Task Force for Cholera Control</i> .
April 2019	Combining Data Across Spatial Scales to Inform Policy, <i>Global Task Force for Cholera Control</i> .
July 2016	Zika Modeling Coordination Group: Future of Zika in the Americas, <i>BARDA Department of Health and Human Services (HHS)</i> .
January, 2016	Mapping Incidence and Classifying Risk for Cholera, <i>World Health Organization, Geneva, Switzerland</i> .
December 2014	Cholera Round Table, <i>Kinshasa DRC</i> : A round table to discuss cholera control policy in Africa convened by the World Health Organization and Democratic Republic of Congo Ministry of Health..
May 2014	Cholera Modeling at Johns Hopkins: Linking Modeling and Public Health Practice, <i>Bill and Melinda Gates Foundation, Seattle, Washington</i> .
April 2013	Evidence for Antigenic Seniority in Influenza A (H3N2) Antibody Responses in Southern China, Guangzhou China, April 2013, <i>Guangzhou, China</i> : Presented to an assembly of policy makers and public health officials, including representatives of the Guangdong Ministry of Health, and the local and national CDC.
January 2012	The Coverage of Measles Vaccination Activities in Selected Countries of Africa and Asia, <i>World Health Organization, Geneva, Switzerland</i> .
April 2011	WHO Strategic Advisory Group of Experts (SAGE) Meeting, <i>Geneva, Switzerland</i> : Presented (with collaborators) model based evaluation of the risks and benefits of introducing rubella vaccine to countries with weaker vaccination programs.

## Consultations with policy-makers and other stakeholders

2020-2021	<i>COVID-19 Response, California, California Department of Health</i> : I lead a team that provides the California Department of Public Health in its response to the ongoing SARS-CoV-2 public health emergency by conducting scenario and strategic modeling of the SARS-CoV-2 epidemic for California region using large-scale spatio-temporal modeling approaches..
2020-2021	<i>COVID-19 Response, Federal Government, FEMA, DHHS, CDC</i> : I lead a team that does forecasting, scenario modeling and epidemiological consultation for the US Government response to the COVID-19 pandemic. This work was originally through FEMA, and transferred to DHHS in June 2020. This work also results in regular contributions to the COVID-19 forecast hub..
2020-2021	<i>COVID-19 Response, Other State Governments, various departments of health, including Maryland, Louisiana, Delaware</i> : Our team has used the COVIDScenarioPipeline modeling framework to provide forecasts and planning scenarios to a variety of state governments. These have ranged from one time engagements, to producing regularly (roughly weekly) reports for the Maryland State government..

2018-present	<i>Gavi VIMC Rubella Vaccination Impact Modeling, Gavi:</i> I am part of an project to forecast the impact of investments in rubella vaccine over the next decades..
2017-2021	<i>Modeling for Gavi VIS Oral Cholera Vaccine Investment Case, Gavi:</i> I lead a JHU based team to project the impact of oral cholera vaccine campaigns on human health over the next 30 years if Gavi decides to make an investment in the vaccine..
2014-present	<i>Global Task Force for Cholera Control (GTFCC), GTFCC:</i> We have worked to provide analytic support and empirical information to the WHO supported GTFCC (as members) since its founding, supported by a BMGF grant. Specific consultations include exploring targeting of oral cholera vaccine (OCV) in Yemen and a systematic review of the OCV efficacy..
2012-2019	<i>'Realtime' dengue forecasting, Thai Ministry of Health:</i> As part of an NIH supported research project we receive bi-weekly updates on national dengue incidence to the Thai Ministry of Public Health, and return forecasts of upcoming dengue incidence.
2016-2019	<i>Modeling for Zika Vaccine Trial Site Selection, US CDC and NIH:</i> With support from the NIH we are part of a collaborative team of three groups each taking a different approach to identifying sites that are likely to have adequate incidence to support local vaccine trials..
August 2018	<i>Ad hoc consultation on disease modeling., US Government Accountability Office:</i> Provided input and guidance as to the best ways infectious disease modeling could be incorporated into US government preparedness activities..
May 2018	<i>Wellcome Trust Consultation on Epidemiology and Modeling for Epidemic Preparedness and Response, Wellcome Trust:</i> Worked in groups to provide guidance to the Wellcome Trust on the optimal ways that disease modeling could be integrated into outbreak response, and how the trust could make investments to facilitate such actions..
Fall 2015	<i>Cholera in Tanzania, US Centers for Disease Control Prevention:</i> We provided the CDC, and (via CDC intermediaries) the Tanzanian Ministry of Health and other interested parties, forecasts of cholera incidence and epidemic course during the 2015-2016 cholera epidemic throughout Tanzania.
January-March 2016	<i>Measles in Nz'er'ekor'e Guinea, European Centre for Disease Prevention and Control (ECDC) and the Global Outbreak and Response Network (GORAN):</i> At the request of staff from the ECDC and GORAN we performed analyses aimed at estimating underlying population immunity to measles and projecting the impact of a potential outbreak in the area. This analysis played an important role in planning vaccination strategy in the region.
Spring-Summer 2014	<i>MERS-CoV Scenario Modeling Working Group consultation, Kingdom of Saudi Arabia (KSA):</i> Supported the KSA Ministry of Health in their response to an ongoing outbreak of MERS-CoV and preparing for the Hajj. This work was a critical in setting infection control policy during the Hajj.
Spring 2014	<i>Cholera in South Sudan, Epicentre/Medecins Sans Frontieres:</i> Performed real time modeling and analytic support for the response to a cholera outbreak in South Sudan.
February 2014	<i>Phase II Impact Modeling Meeting, GAVI Alliance—Bill and Melinda Gates Foundation, Washington DC:</i> Meeting to assess how best to measure the impact of GAVI supported vaccine campaigns.
October 2012	<i>Impact Modeling Meeting, GAVI Alliance—Bill and Melinda Gates Foundation, Washington DC:</i> Meeting to assess how best to measure the impact of GAVI supported vaccine campaigns.
May-June 2009	<i>Pandemic H1N1, New Your City Department of Health and Mental Hygiene:</i> Provided consultation on the implications of the length of the incubation period and serial interval for the length of school closure in response to influenza A/H1N1pdm..

## **Research finding dissemination through media appearances and other communication venues**

2020-2023	COVID-19: NPR; CNN; Fox News; BBC World Service (TV and Radio); BBC; New York Times; Washington Post; New Yorker; New York Magazine; Al Jazeera; Time; Wired; Today.com; Baltimore Sun; NBCNews.com; Metro; USA Today; Fox Baltimore; Politico; TPM; Newsweek; Fortune; Inside Higher Ed; The Atlantic; Arkansas Democrat-Gazette; Here and There with Dave Marash; CBS Baltimore; CBS News; PolitiFact; Voice of America; Yahoo News; and many others.
Spring 2019	Canonical path to measles elimination: El Pais; The Conversation; Scientific American; Bloomberg.
Spring 2017	El Nino's impact on cholera: The Conversation; Reuters.
October 2016	Cholera in Haiti: The Verge; VICE News.
September 2016	Measles Elimination: Reuters.
April-September 2016	Zika: NPR All Things Considered; National Geographic; Miami Herald; Global Citizen; Reuters live twitter chat; The Scientist.
March 2015	Measles post-Ebola: Here and There with Dave Marash; Buzzfeed; Canadian Broadcast Company; Washington Post; National Journal; Scientific American; Voice of America; International Business Times; Mother Jones; USA Today; Science Magazine; and others..
January 2015	Ignaz Semmelweis: NPR Morning Edition.
September 2013	MERS-CoV: The Guardian.

## **Other practice activities**

2020-present	<i>Leadership of the US COVID-19 Scenario Modeling Hub, Multiple, particularly the US CDC and the White House:</i> In 2020 I initiated a collaboration of multiple scientists to co-found the US COVID-19 Scenario Modeling Hub (SMH) <a href="http://covid19scenariomodelinghub.org">covid19scenariomodelinghub.org</a> . I continue to serve on the coordination committee. The SMH provides projections of COVID-19 cases, hospitalizations and death 3-12 months into the future under multiple planning scenarios. These scenarios are developed in close coordination with partners including the CDC, the White House, and ACIP. Scenario projections have been used to inform multiple parts of the COVID-19 response, particularly vaccine recommendations, have been widely covered in the media, and are followed by organizations ranging from public health agencies to insurance companies. The SMH has inspired multiple parallel efforts including the Flu Scenario Modeling Hub and the EU COVID-19 Scenario Modeling Hub..  <i>Contributions to the US COVID-19 Forecast Hub and Flusight, US CDC:</i> I have led teams that make regular forecast contributions to the US COVID-19 Forecast Hub and Flusight forecasting. Both are featured by the CDC as a core part of their response activities..
2020-present	<i>Consultation and communication on COVID-19 pandemic response, Multiple national, state and local governments, institutions:</i> Over the course of the COVID-19 pandemic I have engaged in multiple formal and informal consultations with multiple institutions and governments, including national, state and local governments; as well as institutions including hospitals, companies, universities and businesses..

- 2013-2019    *Faculty co-director student Surveillance and Outbreak Response Team (SORT), Johns Hopkins Bloomberg School of Public Health:* As director (and co-founder) of SORT I supervise a group of students that works to actively engage and support the local public health practice communities. SORT members are involved in ongoing projects helping the Baltimore City Health Department in surveillance activities and outbreak response, including support of an ongoing investigation of a tuberculosis cluster. My SORT related activities have included meeting conducted in conjunction with the practice office, includes meetings with: Baltimore City Health Department, Harford County Health Department, Fredrick County Heath Department, Maryland Department of Health and Mental Hygiene..
- 2017-2018    *Support of Liberian Ministry of Health Post Ebola, Johns Hopkins Bloomberg School of Public Health/Liberian Ministry of Health:* I worked with a JHSPH based team on a US CDC funded project to provide technical support to the Liberian Government and training to health workers. My primary focuses were running classes for County Surveillance Officers to provide basic training in basic software and epidemiologic concepts, and cleaning and linking multiple databases collected over the course of the Ebola epidemic..
- 2010-2012    *Faculty sponsor for the Health Education Across Languages (HEAL) student group., Johns Hopkins Bloomberg School of Public Health:* The HEAL student group conducted health education workshops and helped refugees to access local health services in collaboration with the Episcopal Refugee Immigrant Center Alliance (ERICA) and International Rescue Committee (IRC). HEAL activities included sessions on accessing healthcare and nutritious food in Baltimore, vaccination and vision screening, each of the latter two providing services to over 100 individuals. In my capacity of faculty sponsor I advised students on event planning and participated in many of the events, leading presentations on health issues including nutrition and vaccination..
