GRANT SUPPORT

Current Research Support

9/1/2017-8/31/2020 R00HD086270
 NICHD
 Role: Principal Investigator
 29.4 calendar months (75-85%)
 Amount: \$746,880 (total)

Service delivery factors influencing contraceptive use dynamics in developing countries: a mixed-methods and cross-disciplinary approach

To establish a research portfolio that integrates innovative approaches to investigating the quality of family planning service delivery in developing countries as well as new measures of contraceptive dynamics. This grant will also provide support in the transition from postdoctoral scholarship to a faculty position.

7/1/2017-6/30/2019 NIH LRP-CR
 NICHD
 Role: Principal Investigator
 Amount: \$9,154 (direct, all years)

Provider imposed barriers to contraceptive uptake and continuation
 This is an extramural loan repayment program for clinical research.

Completed Research Support

1/1/2018-12/31/2018

Carolina Population Center Pilot Project
 CPC Development Core
 Role: Principal Investigator
 Amount: \$18,000 (direct, all years)

Patient perspectives on addressing contraceptive discontinuation in low-income settings: Advancing patient-centered care through qualitative inquiry

To implement qualitative methods, including patient journey mapping and focus group discussions, to better understand client perspectives and identify promising solutions to high levels of contraceptive discontinuation.

4/1/2016-8/31/2017

K99HD086270-01
 NICHD
 Role: Principal Investigator
 17 calendar months (100%)
 Amount: \$241,434 (all years)

Service delivery factors influencing contraceptive use dynamics in developing countries: a mixed-methods and cross-disciplinary approach

To establish a research portfolio that integrates innovative approaches to investigating the quality of family planning service delivery in developing countries as well as new measures of contraceptive dynamics. This grant will also provide support in the transition from postdoctoral scholarship to a faculty position.

10/1/2014-6/30/2016

SFPRF8-17
 Society of Family Planning
 Role: Principal Investigator
 Amount: \$13,636 (direct, all years)

Validity of the Retrospective Reproductive Calendar Instrument in Developing Countries

To collect prospective longitudinal data to investigate the validity of the retrospective reproductive calendar instrument.

7/1/2012-6/30/2017

NIH LRP-CIR
 NICHD
 Role: Principal Investigator
 Amount: \$84,208 (direct, all years)

Four separate research proposals approved, each focusing on different aspects of facility-level barriers to contraceptive use

This is an extramural loan repayment program for contraception and infertility research; the initial proposal was awarded in 2012 and the contract was renewed three times.

9/1/2014-3/31/2016

T32 HD007163
 Eunice Kennedy Shriver National Institute of Child Health & Human Development
 Principal Investigator: Massey
 Role: Postdoctoral Research Fellow
 Amount: \$651,016 (direct, 5/1/2014-4/30/2016)

Ruth L. Kirschstein National Research Service Award (NRSA) Training Grant in Population

To provide pre and post-doctoral scholars with strong training in the technical aspects of demographic and statistical methods for careers in demographic research and teaching.

7/1/2012-6/30/2013 Henry P. David Int'l Travel Grant
 American Psychological Association
 Role: Principal Investigator
 Amount: \$1,500 (direct, all years)

Quality of care and contraceptive use in urban Kenya

To investigate the validity of standard facility-level instruments used to measure quality of care in large-scale developing country settings.

7/1/2012-6/30/2013 Henry P. David Research Grant
 American Psychological Association
 Role: Principal Investigator
 Amount: \$1,500 (direct, all years)

Quality of care and contraceptive use in urban Kenya

To investigate the validity of standard facility-level instruments used to measure quality of care in large-scale developing country settings.

1/1/2009-12/31/2016 52037
 The Gates Foundation
 Principal Investigator: David Guilkey
 Role: Graduate Research Assistant (6/1/2010 – 8/31/2014)
 Amount: \$28 million (total)

Measurement, Learning, & Evaluation for the Urban Reproductive Health Initiative

To evaluate the Urban Reproductive Health Initiative, a multi-country program in India, Nigeria, Kenya, and Senegal that aims to improve the health of the urban poor.
